

Enhance communication with Microsoft Teams alerts for news updates!

What our customers are saying

For us, this Microsoft partner stands out with a methodical and comprehensive approach to digital workplace transformation. This helped us to immediately address any open security-related concerns and blockers with proven and right-sized policy automation. That gave us a peace of mind and allowed us to switch our focus on efforts to improve the user experience and their efficiency through a digital workplace that is engaging to all our business groups internationally.

– Dr. Schneider

About Engagy

We are a modern workplace SaaS solution company that removes barriers to innovation by creating a people-centered digital workplace experience. No more bundling, stitching, or linking products from siloed environments. We make collaboration easy and ensure that is tailored to your needs and have built-in security for your peace of mind.

What we offer

Engagy Comms Notifications is a feature designed to streamline communication and information distribution. With it, you can smoothly share updates and valuable information through push notifications in Microsoft Teams. This means your employees will always be up to date. Supported by AI mechanisms, you can create engaging descriptions that encourage reading the messages.

This solution allows you to send notifications to users with just one click. You decide who to notify and how to phrase the message. Recipients receive notifications in Microsoft Teams and can view the article's content directly from there, eliminating the need to switch between applications enhancing user experience even more.

Why Microsoft 365?

Save your company money

Microsoft 365 is available as a simply, monthly subscription. Avoid large up-front costs for new software while moving the cost of IT from capital to operating expense. And without on-premises servers to run email, websites, and document storage, you can reduce energy costs and save by no longer purchasing new server hardware.

Scale your business quickly and flexibly

Microsoft 365 grows with you on the Microsoft Azure cloud. Adding a new user is as simple as buying an additional license, which allows access to business-critical technology on up to five PCs/Macs and five mobile devices. Microsoft 365 provides many plans to fit the right capability needs and price points for each user in your organization.

Technical support

Your Microsoft 365 subscription comes with 24/7 support from a global network of experts, with one-hour response for critical, service-impacting events.

Financially backed SLA

Get peace of mind knowing your services are available when you need them with a financially backed, 99.9% uptime service-level agreement.

Simplified IT management

Reduce headaches by reducing your IT infrastructure. Content lives safely in globally distributed data centers with continuous backup and disaster recovery abilities.

Key use cases

Business-class email

Build anything from lightweight websites to multi-tier cloud services that scale up as your traffic grows.

Cloud storage

Rely on geo-redundant cloud storage for backup, archiving, and disaster recovery.

Meet online

Get actionable insights from your data by taking advantage of a fully compatible, enterprise-ready Hadoop service.

Collaborate, chat privately

Accelerate your mobile app development by using a backend hosted on Microsoft Azure.

Microsoft 365

Microsoft 365 is a cloud-based subscription service that brings together the best tools for the way people work today. By combining best-in-class apps like Excel and Outlook with powerful cloud services like OneDrive and Microsoft Teams, Microsoft 365 lets anyone create and share anywhere on any device.
