

# Enkay Pro Integrate: Intelligent integration & automation

## About Pro Integrate:

Pro Integrate delivers complete visibility and control over your integration processes. Our solution supports a wide range of enterprise integration services, including cloud, on-premises, and hybrid integrations

## What we offer

- **Data Connectivity:** Secure communication via FTP/SFTP, HTTPS, AS2/AS4, and more.
- **Application Connectors:** Seamless integration with SaaS and on-premises applications.
- **Data Formats Support:** XML, JSON, EDI, and more.
- **API Integration Services:** Manage, monitor, and optimize API-based integrations.
- **Enterprise Application Integration (EAI):** Support for hybrid and SaaS integrations.
- **B2B Integration:** Accelerate collaboration with trading partners and external vendors.

## What our customers are saying

"Enkaytech's Pro Integrate has been a transformative solution for our business. Their seamless integration services enabled us to connect our legacy systems with cloud-based applications effortlessly, streamlining operations and significantly improving efficiency. Enkaytech's expertise in B2B integration, along with its ability to quickly onboard trading partners, has revitalized our supply chain processes and accelerated our business growth. We couldn't have asked for a better integration partner!"

**Director, Globco**

# Why choose Pro Integrate?

**Seamless Connectivity:** Effortlessly connect legacy systems, cloud applications, and diverse data sources, ensuring smooth and uninterrupted data flow across your entire business ecosystem

**Enhanced Efficiency:** Automate repetitive tasks, streamline workflows, and reduce manual errors by integrating processes like order-to-cash or procure-to-pay

**Scalability:** As your business grows, Pro Integrate scales with you. Whether you're adding new applications, partners, or services, our solution ensures that your integrations can expand without disruption.

**End-to-End Visibility:** Get real-time insights and monitor all integrations from a single platform. This transparency allows you to detect issues early and maintain control over data flow and performance.

**Fast Onboarding:** Onboarding new trading partners, clients, or systems becomes fast and painless, thanks to reusable integration templates and streamlined processes, enabling you to accelerate revenue-generating activities.

## We are...

A Microsoft Solutions Partner across multiple competencies is a testament to their exceptional expertise and unwavering commitment to providing top-tier services in the world of cloud computing, application integration, and development. Our impressive achievements such as a Digital and App Solution Partner, signify our unwavering commitment to excellence in the realm of Azure services.
