

A conversational search engine that queries your documents instantly

About Query:

Query is an AI-powered enterprise knowledge assistant built on Microsoft Azure that delivers instant, contextual answers from SOPs, policies, and business documents.

What we offer

- AI-powered enterprise search across SOPs, policies, technical documents, and business requirements.
- Conversational AI agent that delivers instant, context-aware answers using natural language.
- Built on Microsoft Azure using Azure AI Foundry, Azure OpenAI, Azure AI Search, and AI Agents.
- Supports semantic search, Retrieval-Augmented Generation (RAG), and document summarization.
- Enables knowledge discovery across multiple repositories and document sources.
- Improves productivity, accelerates onboarding, and enhances decision-making.
- Secure, scalable, and governed with role-based access controls.

What our customers are saying

"Query gives our teams instant access to critical business knowledge, reducing search time and improving productivity. It has become an essential part of our digital workplace."

Why Microsoft Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
