

MODERN WORK FOUNDATION: 4- WEEK IMPLEMENTATION

MODERN WORK FOUNDATION

Build a solid foundation for your modern workplace in just 30 days.

Remote work and decentralized teams are the new normal so your organization needs the technology to support your employees to work and collaborate from wherever they are, as well as securely protect your data.

WHAT YOU CAN EXPECT IN 30 DAYS

- Governance and organization investigation
- Full intranet audit
- User research/ interviews to uncover requirements
- Define success criteria for implementation stage
- Implement Office 365 tools (SharePoint Online, Microsoft Teams)
- Knowledge transfer of best practice to administrators

ENLIGHTEN DESIGNS, DELIVERS AND SUPPORTS MODERN WORK

CHALLENGES

- Inadequate search capabilities generating frustration
- No access outside the four walls of your workplace
- Security concerns for your data
- Data silos preventing synergy of collaboration.

IDEAL SOLUTION

- Use existing software for fast results
- Localised framework to meet specific needs
- Customised design to make workplace visually appealing
- Usage dashboard to manage what you measure
- Foundation for collaboration.

DESIRED OUTCOMES

- Mobilise your workforce from any device
- Find your information first time, every time
- Visually engaging site that you can be proud of
- Modern security and data protection
- Collaboration across teams.

WHY ENLIGHTEN DESIGNS?

As a Microsoft Gold Partner with over 10 years' experience working with SharePoint and Office 365, Enlighten Designs is an authority in designing, delivering and supporting modern work – utilizing the software you already own.

Let us help you harness SharePoint Online, Microsoft Teams and the Microsoft Power Platform to give your employees the power to undertake complex collaboration whilst maintaining curated and customized content management and tight security.
