Sitecore on Azure – the Power of the Possible

ABOUT ENLIGHTEN DESIGNS

As Managed Microsoft Gold partners and Sitecore Gold partners, we are perfectly aligned to integrate a Sitecore solution built on Microsoft technology to deliver technological innovation.

With over two decades of experience under our belt, our mission consists of three interconnected parts: our love of technology, passion for people, and belief in sustainable prosperity.

Why Sitecore on Azure?

With Sitecore Experience Cloud, a digital platform built upon a modern, unified architecture and Microsoft Azure PaaS, you ensure business continuity, autonomy and agility for your digital projects.

This shortens time to market for new products and services and frees up time to focus on designing unique experiences and added value services for your customers.

WHAT WE OFFER

Are you getting the most out of your Sitecore CMS?

Let Enlighten Designs help you transform your Sitecore CMS into a cloud-driven experience platform with Microsoft Azure.

If you're not taking advantage of the powerful personalization, analytics and cloud capabilities of your Sitecore content management system, you're missing out.

This 1-Hr Assessment will give you an overview of the additional capabilities of Sitecore on Azure and how they can be used in your business to improve performance.

At the end of the session, you'll have a clear plan and a quote for implementation.

Why Sitecore on Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. Microsoft's enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

Shorter Time-to-Market

Sitecore on Azure allows you to do daily releases (or even multiple releases per day), giving you the ability to deliver business value faster.

Operate seamlessly

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Scale to your needs

You have choices. Sitecore on Azure allows you to scale your application according to demand, using the auto-scaling features of Azure. This reduces your overall TCO (Total Cost of Ownership), as well as reducing the costs associated with development and operation.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a $1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
