

FEATURED CUSTOMER SUCCESS STORY

Multi-location Long Term Care Provider Modernizes Payments and Goes Remote

FIRST ATLANTIC
HEALTHCARE

fidesic
ap service suite

**First Atlantic needed
to digitize a frustrating
manual process fast.**

“

Between the volume of
invoices, status questions
and remote work, we
decided we needed to
make the time to research
paperless options.”

What they needed...

- Work from anywhere
- Automatic entry into ERP
- Easy Invoice Status Check
- Location-based workflows
- One-click approval
- Simple lookup feature
- Improved visibility

NO MORE PAPER!

“Without Fidesic, we would still be in paper format. I’d have frustrated AP staff and they’d also be somewhat disgruntled about having to work in the office just to shuffle paper.”

Improved Processes = More Joy At Work!

- Faster, Easier, Cleaner
- Fewer errors
- Fewer delays
- Easy to use

**“We’re all primarily
working remote now,
there’s no filing or
going into the office
to find invoices.”**
