

What apps are lurking in your tenant?

Get complete insight and control over your Entra ID applications with ENow AppGov Score, a FREE security assessment tool that will quantify your application governance state quickly. Only requires graph read permissions.

Get Your Free AppGov Score

The ENow AppGov Score is a free security assessment tool that will quantify your application governance state quickly.

- ✔ The scoring system takes into account Microsoft recommended identity practices and the input of Microsoft security MVPs
- ✔ You will also receive a comprehensive Application Governance Assessment report
- ✔ The assessment includes over 24 checks that analyze your organizations enterprise applications, app registrations, and tenant settings.

Managing the volume of Entra ID Apps is very challenging. The native Microsoft tools do not make it easy to understand how big the problem is in a tenant. Misconfigured and overprivileged apps are a huge problem and are now being exploited by adversaries. It's awesome ENow has tackled this problem head on.
