

EMPOWER YOUR TEAMS BY ADDING OUR VOICE SERVICES

OPERATOR CONNECT FOR MICROSOFT TEAMS

TEAMS: YOUR BUSINESS PHONE SYSTEM

Add complete VoIP capabilities to Microsoft Teams, transforming the application into a versatile business phone system.

With Operator Connect, you can choose Enreach as your carrier to enable comprehensive Voice Services powered by our enterprise grade VoIP services directly through Teams.

ALL YOU CAN DO!

- ✓ Bring your own telecom operator to Microsoft Teams.
- ✓ Make calls to mobiles or landlines straight from Microsoft Teams with your dedicated phone number and call plan.
- ✓ Purchase and assign numbers to your entire team directly from one familiar interface.
- ✓ Save on infrastructure purchase and management by using Enreach Voice Connect
- ✓ Port numbers from your existing supplier to Enreach.
- ✓ Feel confident with enterprise-grade reliability and support.

HOW TO GET STARTED

Your Operator Connect journey starts in the admin center of Microsoft Teams. If you do not have MS Teams yet in your organisation, you can purchase any Microsoft/Office 365 package through Enreach or one of our resellers.

With MS Teams admin center, you can choose to have Enreach as your carrier. By choosing Enreach you allow phone numbers and SIP trunks ordered at Enreach to become available in MS Teams. Then you can assign these numbers to the MS Teams users to make and receive telephone calls.
