

Streamline Your Business Processes with WorkMate by ECL!

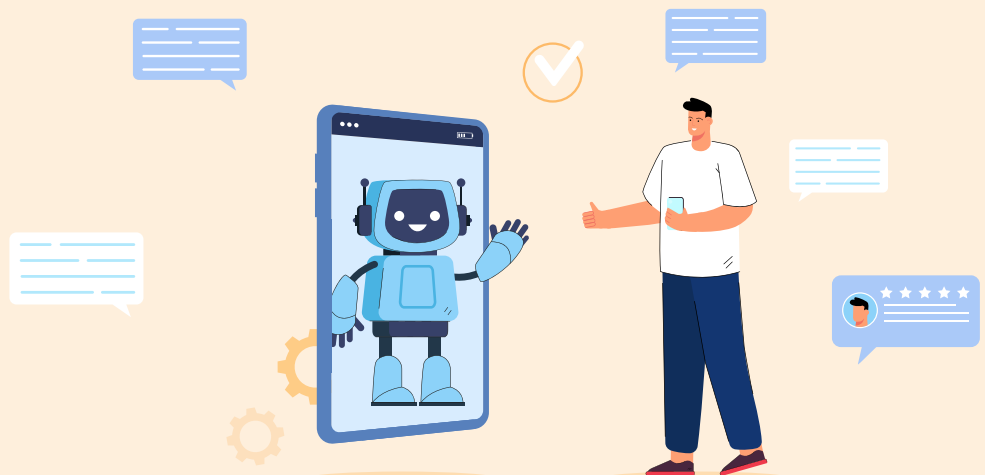

Introducing WorkMate

Get ready to streamline and transform your business processes with WorkMate by ECL! Our innovative automation service is the perfect solution for businesses across various industries, looking to save time, reduce costs, and eliminate human errors. It offers a suite of pre-built automation solutions on a subscription basis.

WorkMate is suitable for a wide variety of industries, including banking, insurance, FMCGs, healthcare, oil & gas, and telecommunications. Whether you're a large enterprise or a small business, Workmate can be used across multiple departments and integrates with existing systems to enhance productivity.

Ditch the Labour. Handle Complex Business Processes with Ease

Elevate your business game with WorkMate! Wave goodbye to mundane tasks and embrace efficiency! Our service empowers you to effortlessly perform complex business processes, from data entry to extraction, and more.

Let WorkMate's simulated human actions handle the heavy lifting while you focus on strategic tasks and service improvement. Get ready for faster turnaround times, reduced costs, and elevated productivity with WorkMate by your side! Work smarter, not harder!

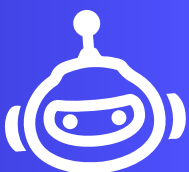

A User-Friendly Central Point for Automation Tools and Solutions

What sets WorkMate apart from other RPA services is the provision of a central point to access a range of automation solutions. Another good thing is our user-friendly interface. Even if you're not a programming wizard, you'll find it easy to navigate and scale automations to fit your specific business needs.

Power Features

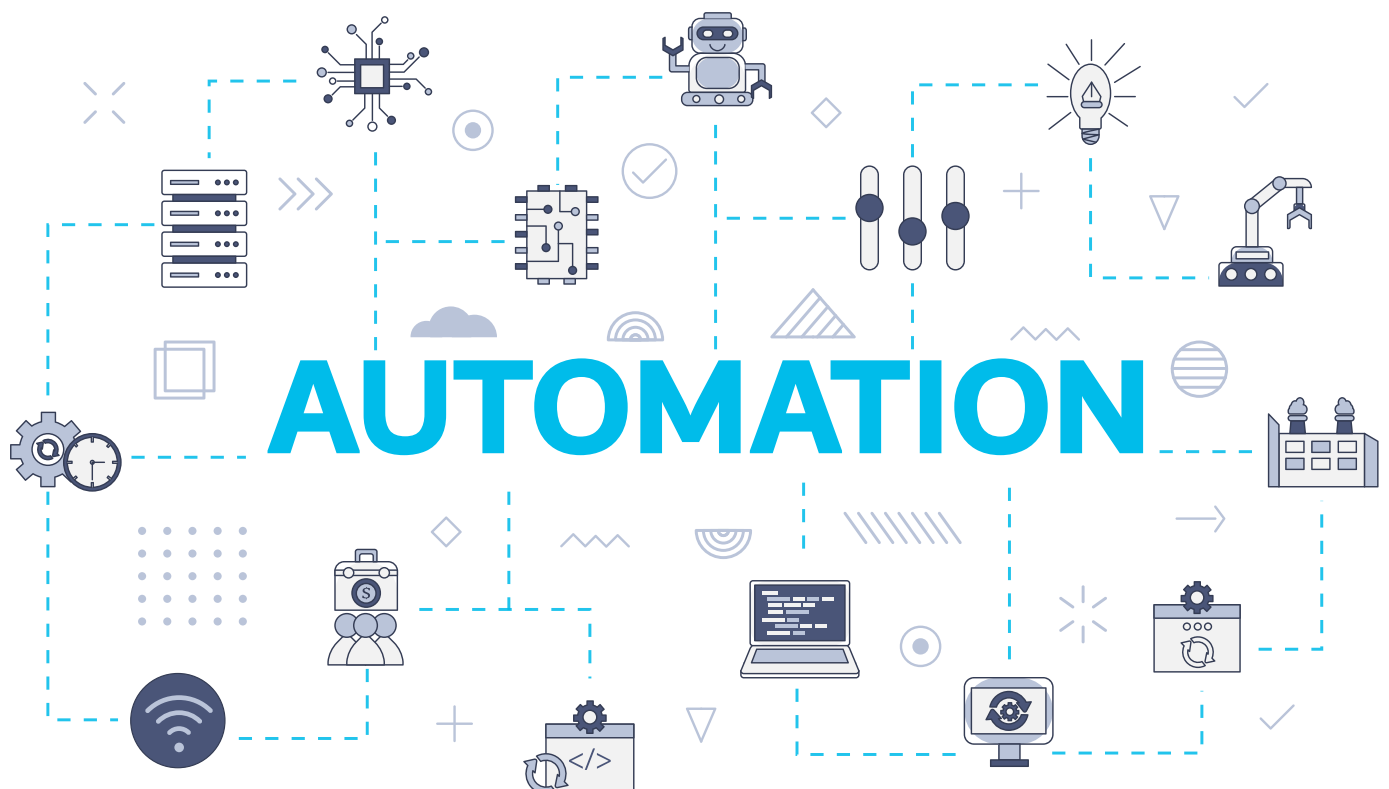

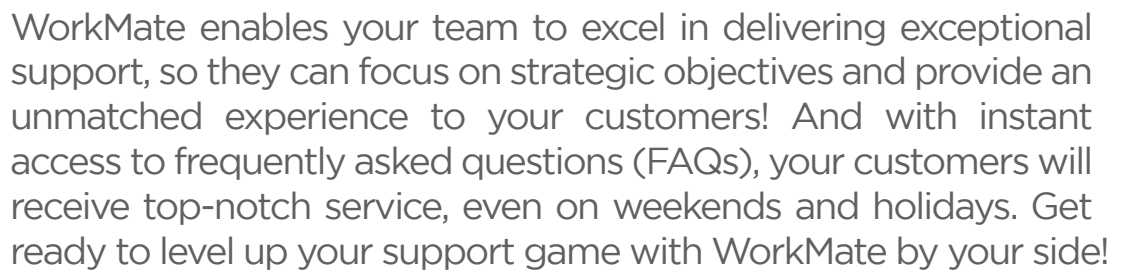

Level up your automation game with WorkMate's cutting-edge features! Our cloud-based architecture and centralized administration dashboard simplify process management and scheduling, eliminating the need for cumbersome virtual machines.

Gain valuable insights with our out-of-the-box analytics dashboards, and track WorkMate's activities for audit and security purposes from the admin dashboard. With customizable user roles, you have secure and granular control over processes, user access, and data viewing. WorkMate empowers you to automate with confidence and breeze through tasks like a pro!

WorkMate provides unparalleled support! Our helpdesk features 24/7 automated support, state-of-the-art Conversational AI, and an intuitive knowledge base. Relieve your team of overwhelming emails, phone calls, inquiries, and ticket requests, and give them easy access to consolidated knowledge.
