

Security360 Workshop

Security360 workshop

- Threat Check – Identify live threats in your organization
- Deliver the Microsoft Security Story and planning customized for your organization
- Security Automation implementation - get secure and stay secure

Why e360?

e360 is an award-winning IT consultancy specializing in end-user computing, modern infrastructure, DevOps and cloud and security solutions for business, government, education and healthcare. e360's Digital Workspace Services combines people, tools, analysis and processes to help you make the most of your investment in Microsoft cloud solutions. Our dedicated team of Microsoft experts will help maximize your investment in the Microsoft 365 integrated security solutions.

Workshop Activity

Our Microsoft 365 risk management solution will apply critical security settings using Azure Automation runbooks to automatically verify and configure settings nightly. Secure Score can be referenced within the Microsoft 365 tenant to view recommended security actions

Identify real threats to your Microsoft 365 cloud environment by performing Threat Checks which identify threats that exist today and have not been remediated in your environment. This includes malicious OAuth apps, suspicious user activities, malware, phishing emails and compromised user accounts

We'll work with you to understand your security goals and objectives and deliver the end-to end Microsoft Security story, an inside look at Microsoft's holistic approach to security, and how it relates to your organization

A list of actionable recommendations to help immediately mitigate the identified threats, presented as a high-level phased implementation plan from cybersecurity pros

Tools used in the Security360 workshop:

Microsoft 365 Defender

Microsoft Defender for Office 365

Azure Active Directory Identity Protection

Microsoft Cloud app Security

Microsoft 365 is a cloud-based subscription service that brings together the best tools for the way people work today. By combining best-in-class apps like Excel and Outlook with powerful cloud services like OneDrive and Microsoft Teams, Microsoft 365 lets anyone create and share anywhere on any device.

KEY USE CASES

BUSINESS-CLASS EMAIL

Build anything from lightweight websites to multitier cloud services that scale up as your business grows.

CLOUD STORAGE

Rely on geo-redundant cloud storage for file sharing, backup, archiving, and disaster recovery.

MEET ONLINE

Get actionable insights from your data by taking advantage of a fully compatible, enterprise-ready collaboration service.

COLLABORATE AND CHAT PRIVATELY

Accelerate your mobile app development by using a Microsoft PowerAutomate based workflows.

WHY MICROSOFT 365?

Save your company money

Microsoft 365 is available as a simple monthly subscription. Avoid large up-front costs for new software while moving the cost of IT from capital to operating expense. And without on-premises servers to run email, websites, and document storage, you can reduce energy costs and save by no longer purchasing new server hardware.

Scale your business quickly and flexibly

Microsoft 365 grows with you on the Microsoft Azure cloud.

Adding a new user is as simple as buying an additional license, which allows access to business-critical technology on as many as five PCs/Macs and five mobile devices per license. Microsoft 365 provides an array of plans to fit the right capability needs and price points for every user in your organization.

Technical support

Your Microsoft 365 subscription comes with 24/7 support from a global network of experts, with one-hour response for critical, service-impacting events.

Financially backed SLA

Get peace of mind knowing that your services are available when you need them with a financially backed, 99.9 percent uptime service level agreement.

Simplified IT management

Reduce headaches by reducing your IT infrastructure. Content lives safely in globally distributed data centers with continuous backup
