Expiration Monitor for Azure Secrets

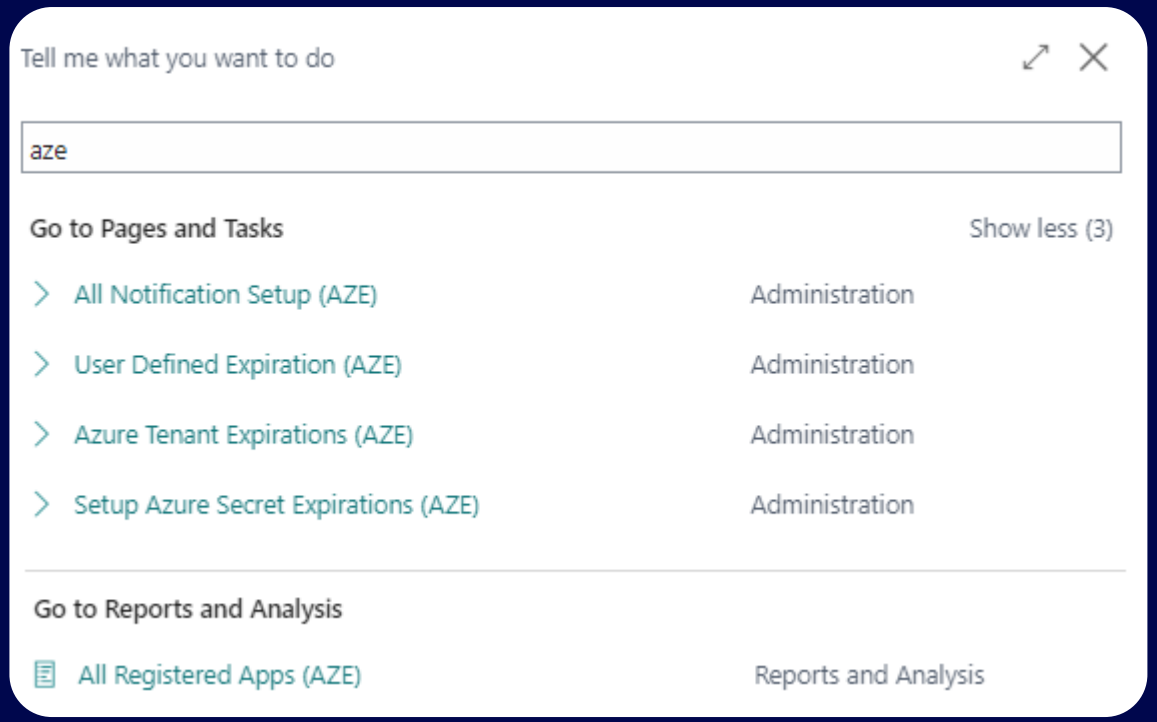
App for Microsoft Dynamics 365 Business Central

DO YOU WANT TO MONITOR THE EXPIRATION OF AZURE SECRETS WITHIN A SPECIFIC TENANT?

WOULD YOU LIKE TO MONITOR THE EXPIRATION OF MANUALLY ENTERED TOKENS OR CERTIFICATES? DO YOU WANT TO RECEIVE AN EMAIL NOTIFICATION IN CASE OF EXPIRATION?

The Eos Solutions **Expiration Monitor for Azure Secrets** app allows **to monitor the expiration of azure secrets** as well as the expiration of additional manually entered tokens or certificates, in Microsoft Dynamics 365 Business Central.

Here is a list of features involved



Monitor the secrets of each app

both the expiring and already expired ones

Receive notifications

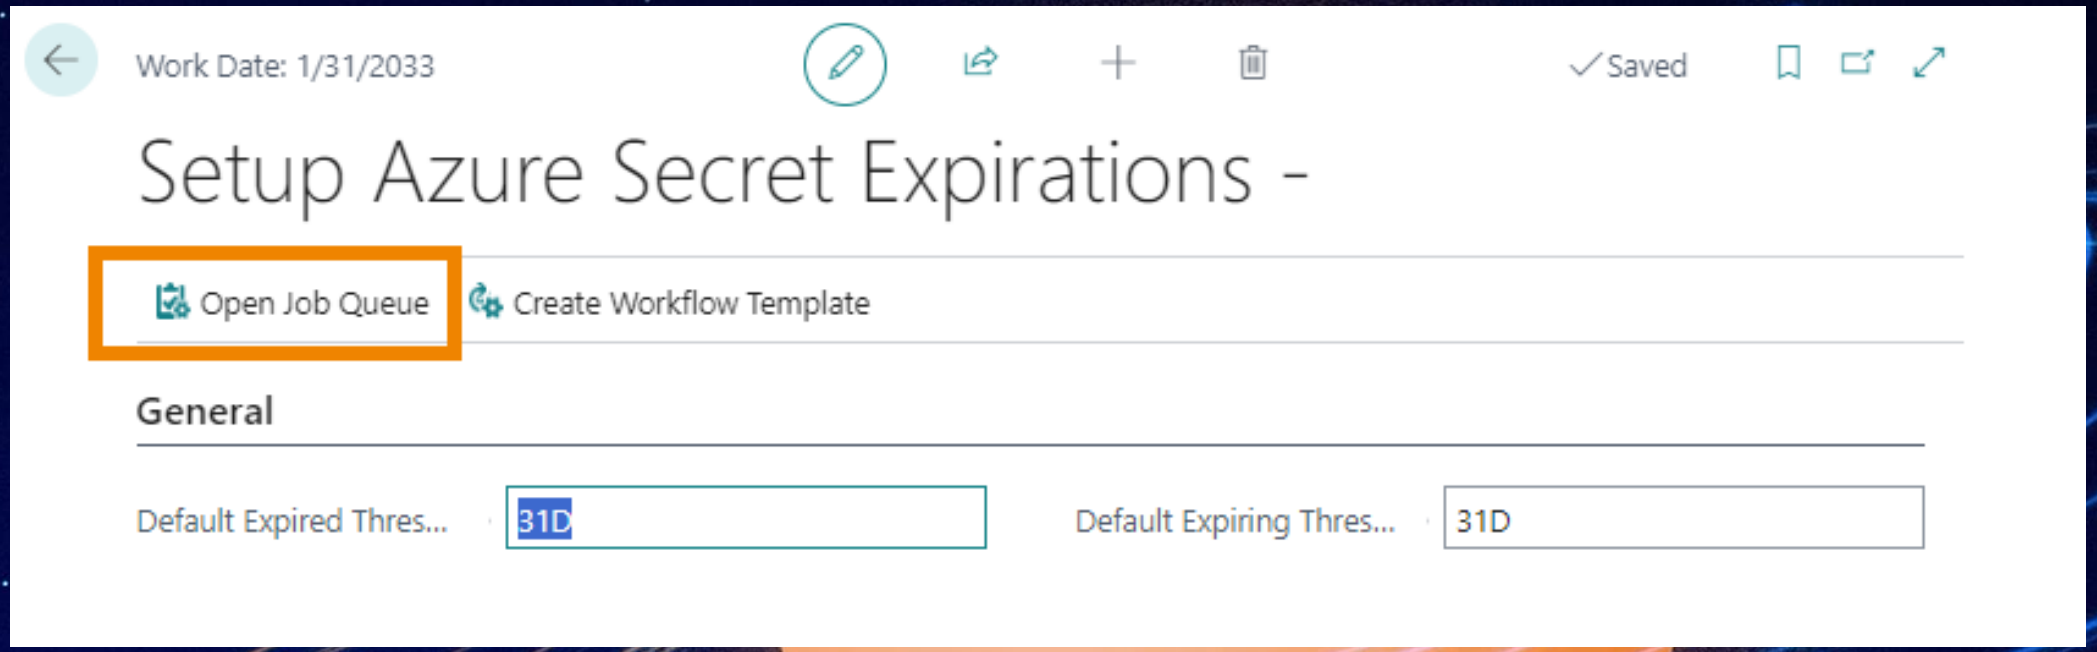
via email if a secret has expired

View notification entries

to check who and when the warning messages are sent to

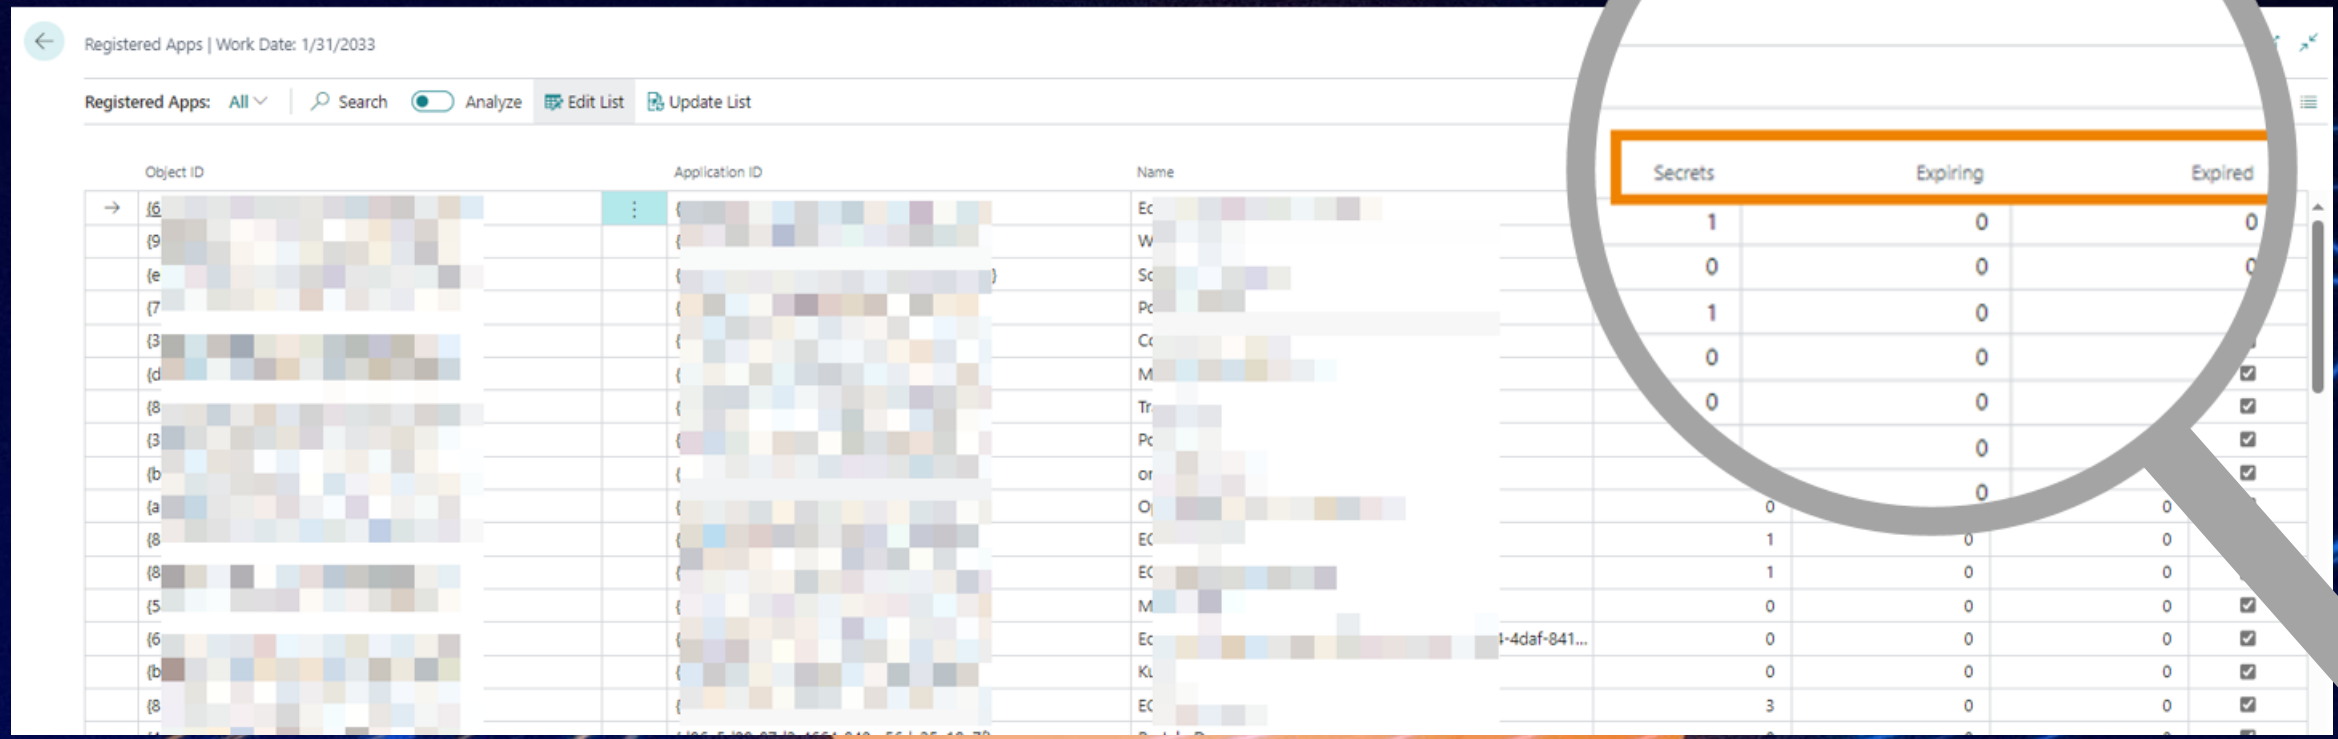
ALT + Q and AZE

Setup



Determine when a secret is considered expiring or expired by setting the appropriate fields in the Setup.

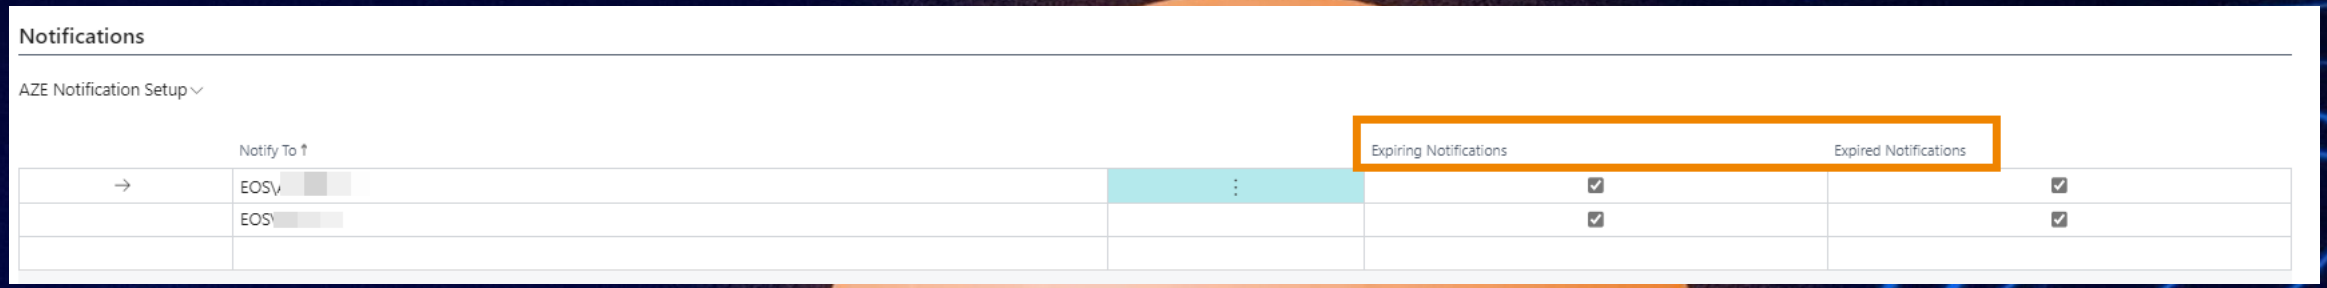
Apps



You can view all secrets related to apps in the tenant from the Apps section.

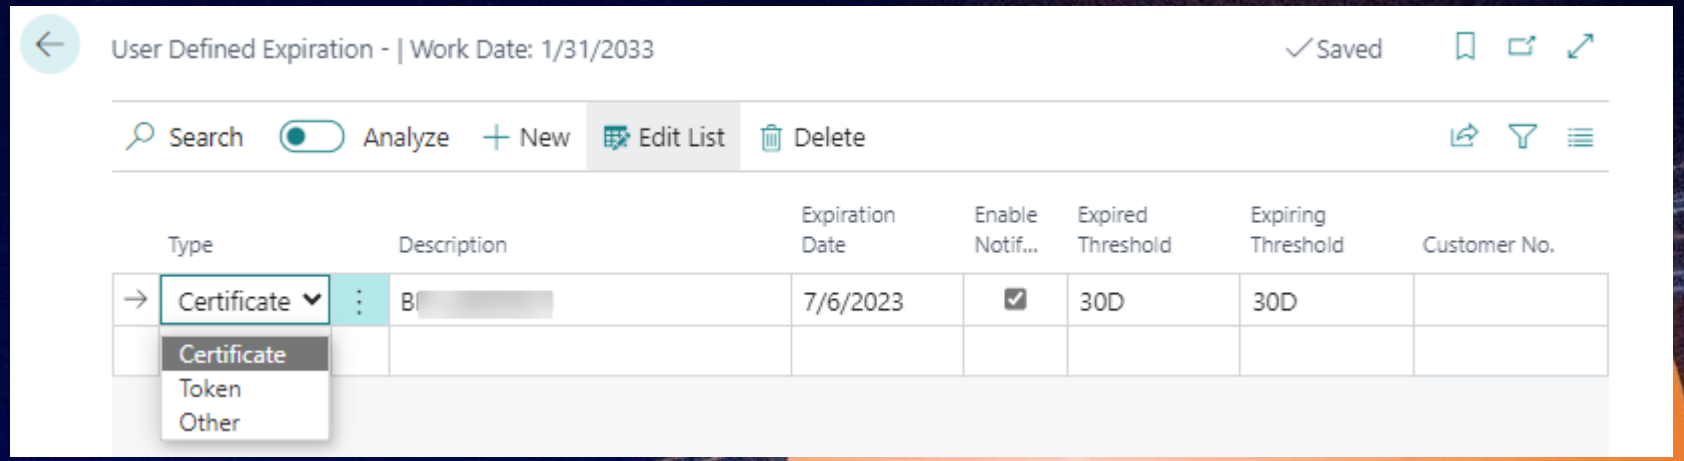
For each app, it displays the number of Secrets, how many secrets are expiring, and how many have already expired.

Notifications



In the Setup page, you specify to whom notifications should be sent and the type of notifications (Expiring / Expired).
The process queue that runs every day will check the secrets, update them, and send email notifications to the users configured in the setup.

User-Defined Expirations



In addition to Azure secrets, you can monitor other secrets or certificates to be notified in case of imminent expiration.

SUBSCRIPTION

Using Expiration Monitor for Azure Secrets app requires a subscription. The subscription can be activated in Microsoft Dynamics 365 Business Central from “Subscription control panel” page or directly from the notification messages that the system proposes, by clicking on the link that allows you to start the subscription wizard.
