Smart HRMS to face the changing world. Digitise all your staff documents. Analytics - Gain actionable insights in your campus

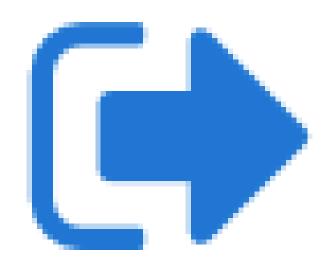

Payslip generator

Custom components and employee categories make payslip generation easier, and it takes very less time.

Customisable salary structure

Easy configuration with customised predefined variables and criteria for the salary calculation and structure.

Leave Management

It has been built exclusively for HR teams. It gives you advanced leave configuration, and allows you to manage PTO requests and approvals with customised criteria.

Employee & attendance management

It helps you to manage your employees effortlessly. You can house all of your employees information on cloud and say goodbye to managing everything on paper.
