

# Microsoft Azure *Health Check Assessment*

## Overview

Ergo's Microsoft Azure Health Check Assessment is a rapid, high-value assessment designed to give you clarity and confidence in your cloud environment. Our certified Azure specialists evaluate your platform against Microsoft's Cloud Adoption Framework (CAF) and Well-Architected Framework (WAF) pillars—covering governance, security, reliability, performance, and cost optimization.

We combine a structured questionnaire with targeted evidence collection and Azure Advisor insights to uncover hidden risks, inefficiencies, and opportunities for improvement. This engagement is ideal for organizations seeking to validate their Azure setup, reduce costs, strengthen security posture, and prepare for future growth.

Our approach ensures you leave with actionable recommendations, a prioritized roadmap, and clear next steps to unlock the full potential of Azure. Whether you're planning modernization, scaling workloads, or simply want peace of mind, this health check provides the foundation for a well-architected, cost-efficient, and secure cloud environment.

### Importance of Cloud Health

Ergo's Microsoft Azure Health Check Assessment will review your cloud environment, addressing key performance areas and given actionable recommendations on how to unlock the full potential of Azure. This assessment will enable:

- Confidence in governance & security.
- Lower cloud spend.
- Better reliability & performance.
- Faster momentum.

### What we Assess

Our Microsoft-certified Azure specialists use methodologies aligned to CAF and WAF to assess your Cloud environment. Ergo's Azure Health Check assess:

• Governance & Management	• Performance Efficiency
• Security	• Cost optimization
• Reliability	• Sustainability

### How it Works

Beginning with a kick-off and scope, our experts will guide you through a questionnaire with targeted evidence collection, alongside Azure Advisor to uncover insights for opportunities. This approach will result in a debrief with actionable recommendations and next steps.

# Why *Ergo*

Microsoft  
Partner  

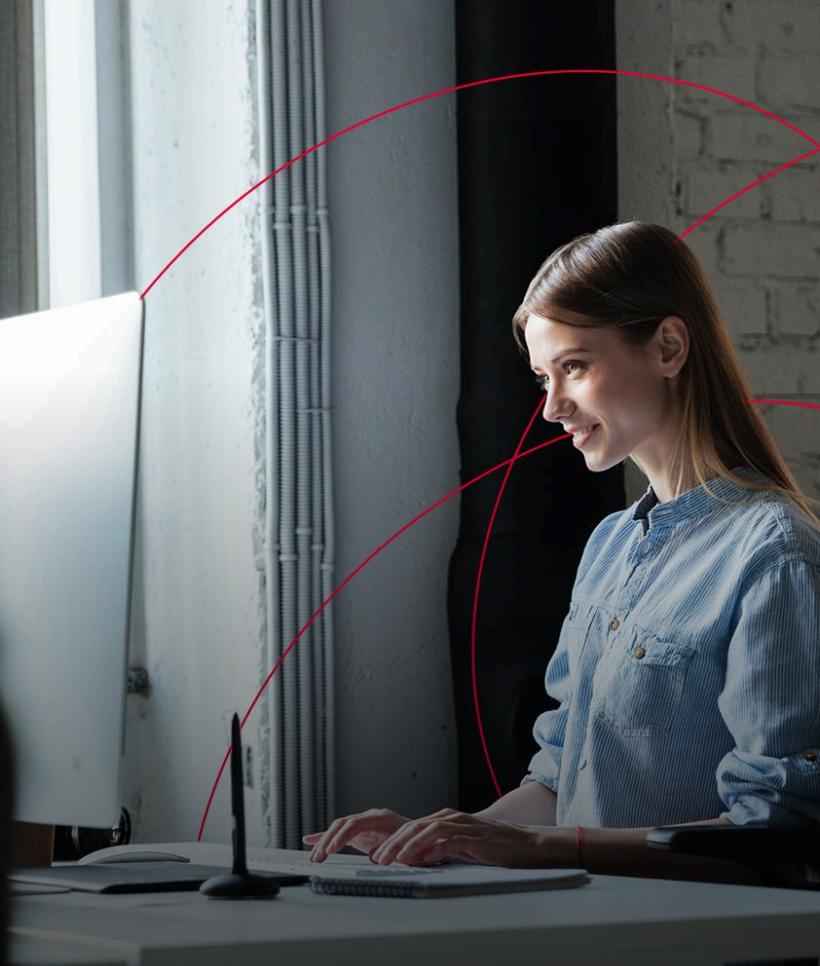

Azure  
Expert  
MSP

Ergo is among a global elite of distinguished Microsoft partners with its Azure Expert MSP status. When you see the Azure Expert MSP accreditation, you can be confident that you are connecting with one of our most capable and high fidelity Azure Managed Service Providers.

Whether you are working on mission-critical apps, entire datacentre footprints, or hybrid environments, Azure Experts MSPs have proven capabilities to support customers on their cloud transformation journeys.

 Microsoft  
Azure Partner of the Year  
2025

Microsoft-certified Azure partner with proven CAF/WAF methodology and ability to execute recommendations. Ergo are Microsoft Ireland Azure Partner of the Year 2025.

## Outcomes

At the end of this assessment you will leave with:

- Health Check Report with health score
- Top recommendations
- Insights for Azure Advisor savings

Alongside clear next steps you can take on your cloud journey to unlock the full potential of Azure. Ergo's Microsoft Azure Health Check Assessment will ensure your Azure environment provides the foundation for a well-architected, cost-efficient and secure cloud environment.
