Delivering Value

Protocol and Private Office Management Platform

Unique Solution for Unique Clients!

evventa® - Office Scheduling and Management System is an interactive, private office management solution built to facilitate the work of the private office of government officials and key international figures personnel by providing them with the right tools to organize daily operations – big and small – in an automated manner, while maintaining a high level of monitoring and security over the work team.

The value of evventa – Office® lies in its ability to plan and manage a diverse spectrum of events appointments and arrange for the needed logistics in a short period of time, thus allowing officials and their organizations to execute their events in a flawless and successful manner.

evventa – Office® targets government officials and key international figures who have busy daily schedules and travel frequently with their staff members, and those who frequently host events for key figures.

Pylon® Solution Brief

A complete business solution that enables governmental entities and big enterprises to automate their daily operations, reaching to a "paper-less" environment, and allowing integration with other governmental entities to support the decision making process internally and externally.

Pylon® Modules

Full Control, Streamlined Operations and Unified Integrity

Human Resources and Payroll
