eSpyder

AN ENTERPRISE CLASS GDPR COMPLIANCE PLATFORM

Safeguarding your Personal Identifiable Information (PII) & intellectual property

eSpyder has been designed from the ground up to support Data Processing Officers (DPOs) in their roles, ensuring company compliance with the GDPR regulations and best business practice.

eSpyder allows DPOs to respond to Data Subject Access Requests (SARs) easily and quickly. It also allows you to track your progress in terms of SARs processing and corporate data storage and retention

GDPR compels all companies to protect an EU citizen's Personal data from inappropriate use or sharing.

eSpyder

## AN ENTERPRISE CLASS GDPR COMPLIANCE PLATFORM

eSpyder – Built for Businesses of all Sizes

Designed to be invisible and seemless for users on one hand, but fully configurable for administrators and GDPR consultants on the other hand. While supporting efficient and highly flexible Search & Indexing configuration and deployment options, eSpyder easily blends into existing IT environments without the need for additional server infrasturucture.

Based on the industry leading eSpyder Enterprise PII identifcation engine, eSpyder is able to rapidly identify Personal Identifiable Information accross a customers estate no matter if on servers, clients, visible or hidden.

⌂ Executive Summary

Summarising the current state of your data estate.

SARs < 30 days	30 days < SARs < 90 days	SARs > 90 days	Custom Search
4	0	0	4
