GEN AI

APT App is an enterprise-grade AI solution designed to streamline the laborious process of **evaluating tender submissions**. By leveraging LLM/VLMs, the application automates key steps in the tender lifecycle: ranging from document classification and verification to both quantitative and qualitative assessment of bidders.

Trustworthy by Design

- AI Hallucination Prevention
- Human-in-the-Loop Oversight:
- Audit-Ready Logs

AI Powered Tender Evaluation Application

APT APP

COMPANY MISSION

Our Mission

To make AI Accessible to all

ABOUT US

Founded in 2019, Esse Pi is an AI company based in Singapore, specialising in building and operating advanced AI platforms across on-premise, GCC, and public cloud environments. Our expertise empowers our clients to leverage best-of-breed Generative AI and Machine Learning models to automate business processes and boost productivity

REASONS WHY YOU SHOULD CHOOSE ATP APP

Save Time & Reduce Workload

Ensure Compliance and Fairness

Ensure Evaluation Consistency

Human Oversight Built-in

Core Features

→ **Smart Document Classification**

Organizes submissions by document type for faster navigation and reference.

→ **Eligibility & Compliance Checks**

Validates if required documents are submitted and if bidders meet minimum technical, safety, and financial thresholds.

→ **Evaluation Criteria Customization**

Supports importing and editing of standard templates or defining your own

→ **AI-Driven Scoring & Reporting**

Generates detailed evaluation reports asynchronously, backed by document-level references.

→ **Robust Audit Trail & Traceability**

Every AI interaction is logged with context, timestamp, and source references for full audit compliance
