Responsible AI

Microsoft Copilot is a chatbot that turns your words into the most potent productivity tool by fusing the strength of large language models (LLMs) with your data from the Microsoft Graph and the Microsoft 365 apps. It is intended to assist users in their work by making recommendations and finishing assignments in accordance with the context of the user's work.

## AI for everything you do

Work smarter, be more productive, boost creativity, and stay connected to the people and things in your life with Copilot—an AI companion that works everywhere you do and intelligently adapts to your needs.

## Shape the future of your business with Copilot

Copilot for Microsoft 365 works alongside you, embedded in the apps you use every day, like Microsoft Word, Excel, PowerPoint, Outlook, Microsoft Teams, and Loop workspaces.

Copilot in Teams will help you run more effective meetings, get up to speed on the conversation, organize key discussion points, and summarize key actions.

Copilot in Outlook will help you draft emails, summarize threads, and catch up on important conversations.

Copilot in Word will write, edit, summarize, give suggestions, and create right alongside you. Copilot in Excel will help you analyze and explore your data so you can make the best decisions.

Copilot in PowerPoint will turn existing Word documents into presentations, create new presentations from simple prompts or outlines, or find the best places for impactful imagery.

## Why Este?

When it comes to adapting cutting-edge technologies, you need an experienced partner.

As your reliable partner, we provide end-to-end services with 24/7 customer support by technical experts who have various competencies in different fields of Microsoft solutions. We secure your environment while increasing your operational and process efficiency and lessening the burden on your IT teams. We manage processes in compliance with global standards and regulations, implementing technological adaptations swiftly and effectively.

In addition to the above mentioned, get in touch with us if you want to enhance your client experience and let's begin creating the future together.
