

In today's world, employees want **more flexible remote work options**, and **meaningful in-person collaboration**. Empowering people to thrive in a more flexible work world requires rethinking everything—from how you empower managers, to how you create culture, to how you reimagine the employee experience.

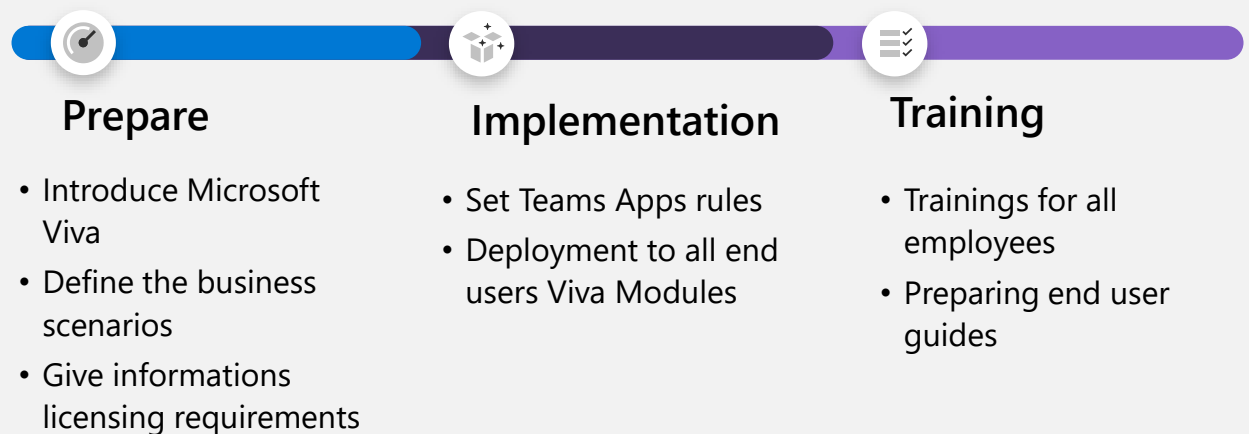

As **Este Bilisim**, we aim to improve the employee experience in the solution we offer. Within Viva Modules, we aim to improve the employee experience, especially with **Connections, Learning** and **Insights**.

Guiding the customer's license needs and increasing employee loyalty are the main success criteria.

Microsoft Viva – Employee Experience Platform

- **Viva Learning:** Companies' e- learning platform
- **Viva Connections:** Custom intranet solution
- **Viva Insights:** Well-being balanced all employees & includes company's insights

Implementation Plan
