Eviden Data Assistant
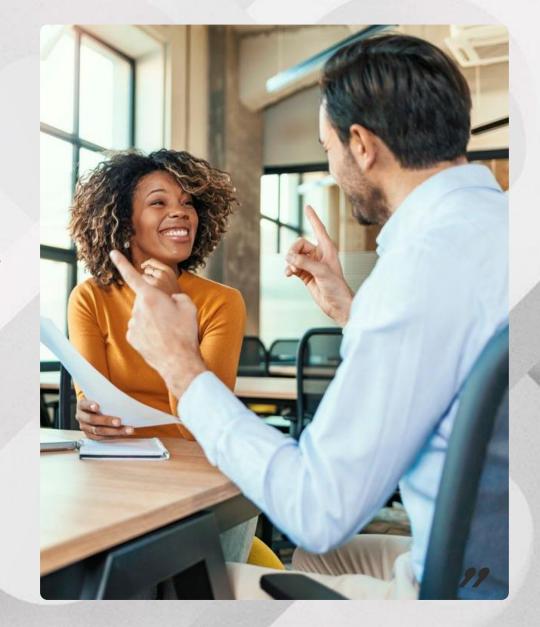

Unlock the potential of effortless data analysis with the power of natural language, empowering all to access invaluable insights easily!

What We Offer

Power your non-tech teams to discover the untapped potential within your structured databases with our innovative solution. Unearth the hidden value concealed in your wealth of data resources. Here's what sets our tool apart:

- **Natural Language Query**: With our tool, you can effortlessly interact with your data using plain language without complex database queries, easily unlocking the insights you seek.

- **Instant Access to Live Data**: Access large volumes of live data instantly, receiving precise and real-time responses.

- **Data Control**: Your data remains secure within your application. There's no need for cumbersome data copying, ensuring the integrity and privacy of your information.

- **Top Notch Security**: There are no security risks and/or performance threats to your production data.

Elevate your data strategy to new heights and harness the full potential of your structured databases. Join the future of data accessibility with our game-changing solution today!

EVIDEN

Eviden Data Assistant

How it Works

With Microsoft Tech stack and Azure services, EDA offers effortless access to highly valuable database insights.

- Real-Time Data Access
- Robust Security
- Multi-lingual Support

Execution Strategies and Solutions

- **Democratize Data Insights**: Empower business users with access to valuable data insights.

- **Increased Data Utilization**: Enhance ROI through broader data utilization.

- **Improved Competitiveness**: Respond swiftly to market changes with expanded data access.

Eviden Data Assistant

Customer Outcomes

Unlock the Power of Instant, Data-Driven Decision-Making by removing lengthy dependencies.

Customer Success

Company: A Leading Public Transportation Provider

Solution: Our solution simplified data extraction from the customer's extensive database. Eviden Data Assistant enabled non-tech teams to effortlessly query data using plain language, enhancing decision-making and data accessibility while supporting multilingual needs.

Outcome: Eviden implemented its Eviden Data Assistant tool, resulting in:

- **Higher Data Utilization**: Increased user engagement maximized the data resource ROI.
- **Enhanced Competitiveness**: Efficiently leveraging a larger user base provided a competitive edge.
- **Enhanced Collaboration**: Greater accessibility fostered innovation through team collaboration.

Eviden is your preferred digital, cloud, data, and security partner to help you realize your digital future. Together, Microsoft and Eviden are expanding the possibilities of data and technology, now and for generations to come.
