

Work2Success

Eviden offers a comprehensive HR Migration Solution that provides seamless HR data migration to SAP SuccessFactors, offering cost-efficient solutions with a simple interface. As a certified SAP partner, we leverage our expertise and global presence to serve Workday and other HRIS platform customers.

What We Offer

- Clients facing high renewal costs for legacy HR systems and complex landscapes benefit from our solution, **simplifying transitions to SAP SuccessFactors and streamlining processes.**
- Work2Success enables **accelerated, transparent, and secure migrations** from any legacy HR platform to SAP SuccessFactors using SAP Fiori's intuitive interface.
- We provide a **global** team of **Human Experience Management Experts** to assist in the digital transformation of HR processes, providing multilingual support in 26 languages.
- Leveraging **advanced SAP capabilities** of SAP HANA, BTP, and CPI for complex transformations and precise mapping, ensuring optimal performance and fit.
- Hosted on Microsoft Azure, our solution guarantees a **robust, scalable, and reliable infrastructure**, enhancing performance and integration capabilities.

Work2Success

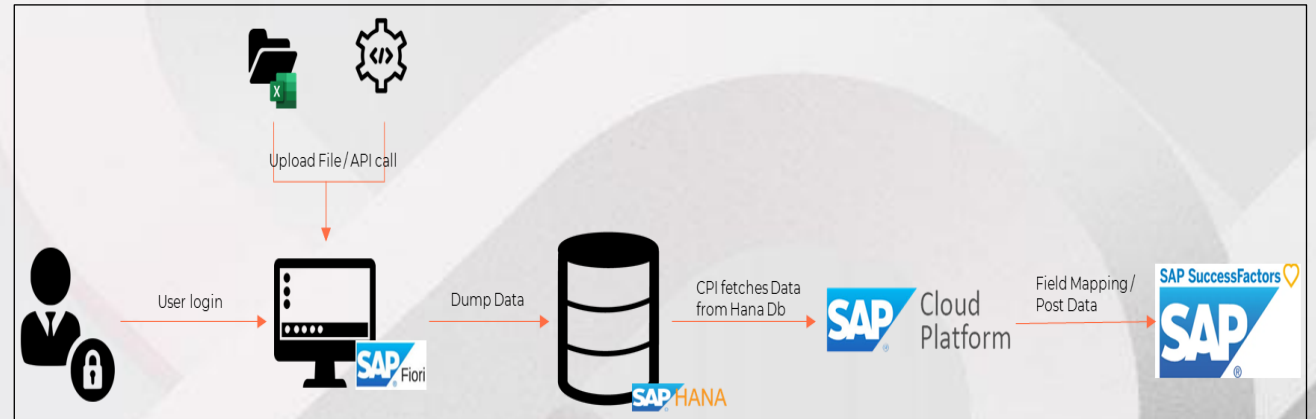

How it Works

We initiate the process with discovery questions to comprehensively understand the client's needs, ensuring that our solution aligns with their objectives and delivers the expected ROI.

Our high-level implementation steps include:

- **Cloud-Based BTP Solution:** Installation of a cloud-based Business Technology Platform (BTP) solution with a user-friendly interface for seamless data upload, manipulation, and migration from various legacy HR platforms such as Workday, SAP ERP HCM, Cornerstone, Oracle HR, and PeopleSoft.
- **Tailored Engagement Models:** Offering diverse engagement models, including Proof of Concept (POC) and Custom-Tailored editions, to cater to specific requirements and ensure optimal solution fit.
