

## Offer Description

Learn to build your own business apps—no coding required. Evincible Solutions delivers Microsoft’s official **Power Apps in a Day (PAIAD) Workshop**, guiding your team through the creation of a working app connected to real business data in just one day.

## Key Benefits

- Build your **first Power App** with hands-on guidance
- Connect apps to **SharePoint, Excel, and Dataverse**
- Learn app **security, sharing, and governance**
- Gain confidence to innovate with **low-code development**
- Reduce IT backlog by empowering business users

## What’s Included

- 1-day interactive workshop with Microsoft-certified trainers
- Real-world use case and guided app development
- Training materials and post-session support
- Q&A and best practices for adoption

## Who Should Attend

Business analysts, process owners, department leads, and IT champions looking to accelerate digital transformation.

## Why Evincible Solutions

- Delivered **hundreds of workshops** across industries
- Trainers with deep hands-on experience in Power Apps projects
- Proven approach that blends training with real-world outcomes
