Power Platform Center of Excellence (CoE) – Implementation & Advisory

Offer Description

Evincible Solutions helps enterprises establish a **Power Platform Center of Excellence (CoE)** to manage governance, security, and adoption at scale. Whether you're rolling out **Power Apps, Power Automate, Power BI, or Copilot**, our structured approach ensures you maximize ROI while enabling innovation safely across your organization.

Key Benefits

- Standardize **best practices** for app and flow development

- Improve **security & compliance** with governance policies

- Track usage with **adoption and performance dashboards**

- Eliminate duplication and shadow IT risks

- Balance **citizen development with IT oversight**

What's Included

- CoE discovery & readiness assessment

- Governance model and roadmap design

- Deployment of CoE Starter Kit & dashboards

- Training for admins and business units

- Ongoing adoption guidance

Who Should Attend

CIOs, IT managers, and enterprises scaling Power Platform across multiple departments.

Why Evincible Solutions

- Microsoft-certified partner with **proven CoE success stories**

- Industry-specific CoE frameworks tailored to your needs

- Expertise in **adoption, lifecycle management, and governance**
