Our Envisioning Workshop

Considers all elements of your AI journey – based on Microsoft model

Organization & Culture

Do you have an operating model to enable the adoption and use of AI?

Do you have top-down support?

Business Strategy

What business outcomes are you driving?

How can AI help you achieve those outcomes?

Applied AI Experience

Do your people have diverse experiences and skills with AI?

Is your organization collaborating to build experience?

AI Governance

Are you implementing processes and controls that are transparent?

Are you governing data privacy and security?

Technology Strategy

Do you have access to quality data?

Is your infrastructure set up to help you scale?
