

# Prior Authorization Automation for Healthcare POC: 1Wk

## About Exelegant /Microsoft Power BI Platform:

### Exelegant Prior-Authorization Automation for New Jersey PIP is free!

A turn-key, cloud-hosted automation service—built on Microsoft Power Platform—that captures the data in your EHR note, completes the New Jersey APTP form, attaches clinical documentation, and submits the request directly to the payer portal. Status updates flow back into your system in real time, so staff know instantly when treatment is approved.

### Who benefits

- Physicians & therapists treating motor-vehicle-injury patients under N.J. PIP
- Clinical & front-desk staff who currently key in APTP details by hand
- Revenue-cycle managers & billing teams measured on clean-claim rate and days-in-AR
- Patients (indirect)
- Quicker access to care, improved satisfaction

### Proven Impact:

- ✓ 75 % staff-time reduction on prior authorization
- ✓ Zero missed deadlines or form rejections in pilot sites

### Quick start

- ❖ **Book a 30-min discovery call (free)**
- ❖ **We connect to your EHR sandbox and demo live APTP automation in 7 days**
- ❖ **Go-live under a simple monthly subscription—no servers, no long contracts**

# Why Microsoft & Exelegant?

- ❖ Microsoft Solutions Partner for Security, Modern Work, Azure & Data/AI
- ❖ HIPAA-ready architecture on Azure, with built-in encryption and role-based access
- ❖ Support from the same ISO-27001 team that built TrustElements™ risk platform
- ❖ Stop losing revenue to paperwork. Let Exelegant handle PIP prior authorizations—so you can focus on patients, not forms.
- ❖ CTA: Schedule your free demo today.

## How Exelegant fixes it?

- ❖ No more manual typing, faxing, or chasing faxes.
- ❖ One click from the medical note – our connector extracts CPT/ICD-10, visit notes, and provider details.
- ❖ Auto-populate APTP – validates against payer and PIP rules; flags missing data before submission.
- ❖ Instant e-submission & tracking – status and approval codes flow back to your EHR/billing queue.
- ❖ Audit-ready archive – every submission stored in a secure Azure workspace with time-stamps.

## About Exelegant

Partner with a trusted Microsoft-certified provider. We eliminate the burden of data setup and management, so your team can focus on growth, not spreadsheets.

Empower your RCM with Exelegant's prior authorization automation, decrease costs and improve productivity of your RCM

### Lower cost care

Promote seamless collaboration between payers and providers to reduce expenses

### Data-driven Healthcare

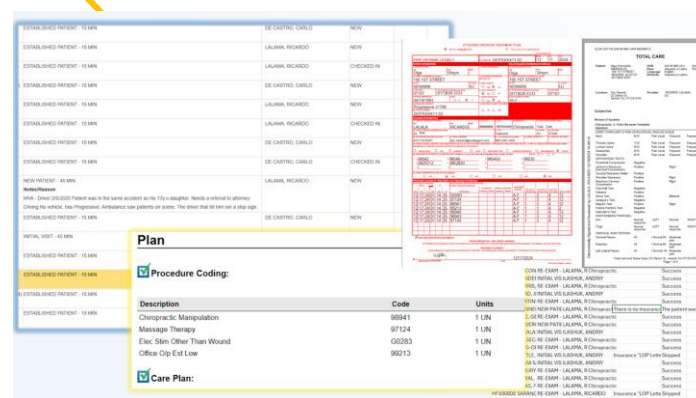

Revolutionize healthcare processes by transitioning from document reliance to adopting intelligent data-driven processes.

### DESIRED OUTCOMES

Healthcare teams may expect immediate cost savings from 15 to 20% and in long term as much as 50% allowing the organization to boost productivity and grow in new powerful ways

### Automate PA today

Use automated prior authorization to reduce amount of manual routine work, avoid mistakes and to expedite patient care

## Business pain solved:

- ❑ New Jersey PIP rules (N.J.A.C. 11:3-4) demand a perfectly completed APTP form for every course of treatment.
- ❑ Missing or late submissions = 50 – 100 % reimbursement loss.
- ❑ Current state in most clinics: 45 manual prior-auth requests per provider, per week, 1 in 3 practices keep staff exclusively for authorizations, 4 of 5 physicians say the burden has increased over five years
