

MANAGED MODERN WORKPLACE

with Microsoft 365

The Modern Workplace is closer than you think.

Workplace Challenges

In a typical legacy workplace there are many challenges facing business when trying to determine how IT can serve the business better.

- Introducing flexible work hours
- Increasing Workforce mobility to enhance Productivity
- Lack of performance and reliability of Legacy IT environment (devices and infrastructure)
- Limited Compliance & Governance
- Restrictive Security
- Limited IT Agility to meet changing business needs

The Modern Workplace is closer than you think.

Business Needs/Outcomes

Flexibility is the cornerstone of change to both business and user needs. Technology is required to provide access, manipulate and collaborate with data across virtual and geographic boundaries. This balance of work and technology is underpinned by increasing needs for compliance, security and accountability.

- Work day flexibility for optimum productivity
- Work anywhere on any device
- Security without impacting productivity
- Compliance, Governance & Standards
- Rapid response to business needs
- Business Continuity

The Modern Workplace is closer than you think.

Solution

ExperTEQ uses Microsoft365, a comprehensive suite of tools, and our own services to provide a cohesive set of solutions that address all of these business needs. Our solutions allow for the rapid growth in user, business and security demands. Our solutions include:
