Prepare your user accounts for future SAAS services

ABOUT Experts Inside

Since we are founded in 2011, we are focused on location- and device-independent work, anytime and anywhere with Microsoft 365 technologies. Over the years, we have built up specific know-how in the cloud based modern workplace, communication and collaboration as well as cloud adoption and change, which we are happy to share with our valued customers.

See what customers are saying:

“With the assesment of ExpertsInside we were able to synchronize our excisting AD to azure AD, although we already had active users in the Azure AD, Experts Inside supported us to combine all employees into one Azure AD.

WHAT WE OFFER

During our Identity-Assessment, we support our customer to select between different authentication methods and prepare the AD in the best possible way to get connected to the Azure AD.

Pitfalls like duplicate user accounts, mistakes in AD cofigurations or a wrong decission about the authentication method will be determined by the knowledge of XI experts.

At the end of the assesment, all excisting user accounts will be successfully synchronized with the MS Azure AD.

Why MS Identity

Save your company money

With the help of our assesment, we uncover inconsistencies that could lead to problems during future configuration. With our meassurements our customers save time and money.

Scale your business quickly and flexibly

We lead our customers to the ideal solution directly, without any delay or extra rounds. Experts lside designs and optimize the network of the customer to prepare the environment for future scalability.

Financially backed SLA

We offer our customers two different kind of services.

Gold service - ExpertsInside reaction time withing 4 hours (during normal working time)

Silver service - ExpertsInside reaction time withing 8 hours (during normal working time)

Simplified IT management

After the assesment, our customers are able to evaluate the effective and strategic action points that needs to be done to simplify theirIT enviorenment.

Microsoft 365 is a cloud-based subscription service that brings together the best tools for the way people work today. By combining best-in-class apps like Excel and Outlook with powerful cloud services like OneDrive and Microsoft Teams, Microsoft 365 lets anyone create and share anywhere on any device.

WWW.MICROSOFT365.COM
