Think bold, act reliable

Success story

Expleo Cloud Service Portfolio

bringing value to Global Enterprises

Microsoft Azure

Our complete cloud migration solution includes:

- Software architecture and code review to understand cost, benefits and technical challenges of cloud migration.
- IT asset analysis, resource optimisation, risk management, and cloud migration planning.
- Cloud migration including infrastructure, systems, tooling and software development.
- Value Stream Mapping: monitoring, controlling, and value improvements of the cloud migration balancing quality, risk, and cost.

Leveraging best of breed technology platforms from:

Microsoft | MICRO FOCUS | CAST | Flexera

Value Proposition

- **Cost Reduction**: eliminate waste, maximum utilization of cheaper environments and licenses
- **Green**: driving carbon neutrality and energy efficiency
- **Control**: visualisation, measurement and consolidate of all spend and usage
- **Latest Technologies**: reap benefits from new technologies in speed, efficiency and improved customer experience

Why Expleo?

Expleo delivers global Enterprise-wide programs leveraging our extensive partner network, our broad service portfolio, and with decades of experience across all key verticals.
