with Microsoft Fabric

# D365 F&O Analytics with Microsoft Fabric

## Transform D365 Data into Actionable Insights with Fabric

Unlock the true potential of Microsoft Dynamics 365 Finance and Operations (D365FO) with our expert consulting services, seamlessly integrated with the power of Azure Synapse Link and Azure Fabric. At DevAnalytic365, we are at the forefront of revolutionizing how businesses operate by leveraging the latest Azure Cloud technologies to drive efficiency, innovation, and unparalleled growth

### What You Get

- 01 Seamless migration from Synapse to Fabric
- 02 Native D365 integration via OneLake - no ETL needed
- 03 Medallion architecture (Bronze -> Gold) for clean, scalable data flows
- 04 Automated pipelines, validation, and CI/CD for trusted delivery

### How we implement our top-of-the-line solution:

**Week 1:** Identify business needs and ensure all prerequisite are in place. Plan implementation steps.

**Week 2:** Connect D365FO to DataVerse, setup Azure objects and Synapse Workspace

**Week 3:** Identify top 10 main data points and transfer tables seamlessly into

**Week 4:** Almost there, create 2 PowerBI reports on top of data in your Azure Synapse
