

Microsoft Fabric Migrate 360

Unlock the power of unified analytics and AI-ready data with Exponentia's proven Microsoft Fabric expertise!

Exponentia delivers end-to-end Microsoft Fabric implementation that consolidates disparate data sources into a single, scalable platform. Our comprehensive service transforms fragmented data landscapes into unified environments that drive real-time insights and enable advanced AI scenarios.

Your Complete Solution:

- Complete Microsoft Fabric platform deployment and configuration
- Unified data architecture from ingestion to AI-powered insights
- Seamless integration with Power BI and Microsoft 365 investments
- Production-ready environment with enterprise-grade security and governance

Our Proven Implementation Approach

- **Discovery & Architecture Design** Stakeholder workshops, data estate assessment, and future-state Fabric architecture blueprint including Lakehouse, Data Warehouse, Real-Time Intelligence, and governance frameworks.
- **Platform Foundation & Data Pipeline Development** OneLake configuration, secure workspace setup, robust data ingestion pipelines, transformation processes, and optimized semantic model creation using medallion architecture.
- **Analytics & AI Enablement** Power BI integration, real-time dashboards, AI/ML readiness preparation, and advanced analytics use cases implementation.
- **Production Deployment & Team Enablement** End-to-end testing coordinated production migration, role-based training programs, and comprehensive documentation delivery.

Strategic Value:

- AI-ready foundation for machine learning and advanced analytics
- Scalable architecture handling growing data volumes and users
- Future-proof platform built on Microsoft's latest technologies
- Enterprise-grade security and regulatory compliance

Deliverables

- End-to-end implementation from strategy to production
- Production-ready Microsoft Fabric environment with automated data pipelines
- Curated semantic models and integrated Power BI workspace
- Comprehensive security, governance, and monitoring solutions
- Technical documentation and user training materials
- Best practices playbook and Center of Excellence framework

By leveraging our service, organizations can expect improved data reliability, enhanced integration efficiency, cost optimization, and a scalable platform designed for future AI and analytics growth.

Start with our discovery workshop to assess your requirements and design your Microsoft Fabric solution.

Why Exponentia?

- Experience with 150+ data analytics projects and 50+ Microsoft-certified professionals
- Proprietary accelerators ensuring faster, more reliable delivery
- Deep expertise in Microsoft Fabric, Azure Synapse, Data Factory, OneLake, and Power BI

Take advantage of this opportunity to explore how Exponentia's proven expertise can support your transition to a modern data platform with advanced analytics capabilities.

Pricing: Starting at \$50,000

Our Microsoft Offerings

- Our **Power BI Migration Assessment** includes a deep dive into your existing BI setup (Qlik, Tableau, or others), followed by a holistic migration strategy. The end result will be a state-of-the-art data platform leveraging the power of Power BI.
- FabricMigrate360** is a **comprehensive solution** that assesses your existing data and analytics landscape, providing tailored recommendations for a seamless and efficient Microsoft Fabric implementation.
- Unlock Business Agility with Custom-Tailored Power Platform Solutions** We leverage Microsoft Power Platform expertise to build custom apps, automate workflows, and deliver actionable insights. Our tailored solutions drive efficient, agile, and scalable digital transformation. We develop PowerApps to streamline processes, automate repetitive tasks with Power Automate, and create interactive Power BI dashboards for real-time analytics.
- Custom AI Solutions with Microsoft Copilot Studio** – Boost productivity, streamline workflows, and transform customer interactions with intelligent AI. Our tailored approach enables seamless integration with Microsoft 365, Dynamics 365, and enterprise applications for enhanced efficiency.

Hi Racht,

I hope this message finds you well!

I wanted to take a moment to express my heartfelt appreciation for you and the entire Exponentia team for the outstanding work you have been doing at Mankind Pharma. The project has been nothing short of transformative for the sales and marketing team, and the positive feedback we've received speaks highly about the impact.

The agility, dedication, and resilience demonstrated by everyone involved in this project are truly commendable. It's been a pleasure to witness teamwork and dedication in action. I am looking forward about the prospect of collaborating with the Exponentia team on future projects.

Keep up the fantastic work, and thank you once again for your incredible contributions!

Warm regards,

Hitesh

Hello Racht,

I hope this email finds you well.

I wanted to provide my feedback and appreciation to you on the various engagements that we have worked on together. I have always found you to be very proactive with your approach towards customer engagements. You provide great clarity on the solutioning and work with great collaborative approach.

I look forward to work with you on further engagements in the future. All the best!

Kind Regards,
Deepti
