

Getting More Done Together, From Anywhere

ABOUT EC MANAGED IT:

EC has provided business continuity (BC) IT services to SMBs for more than 25 years. We understand how many moving components there are in running a business, and we aim to simplify IT through meaningful technology and unparalleled support.

What our customers are saying...

"EC Managed IT detailed their solution to us in a very transparent and detailed manner. This gave us a lot of confidence ahead of the migration."

– Rafael, IT Administrator, Sources Community Resources

WHAT WE OFFER

In 2020, organizations worldwide were forced to accelerate their digitalization efforts to keep employees at home, working remotely however they could.

Now it's time to think resiliency.

Empower your business and employees to be productive every day, from virtually anywhere, with Microsoft 365.

EC Managed IT has expertise and extensive experience in helping organizations leverage the components of Microsoft 365—including Exchange, SharePoint, OneDrive, and Microsoft Teams.

We take the complexity out of deploying and migrating to Microsoft 365, and we ensure a smooth transition to the cloud. We also take the time to train your entire staff, making sure they're confident in the tools and features each application has to offer for better collaboration, communication, and productivity.
