

EY DigiLiM+™

A dynamic digital tax life cycle management solution

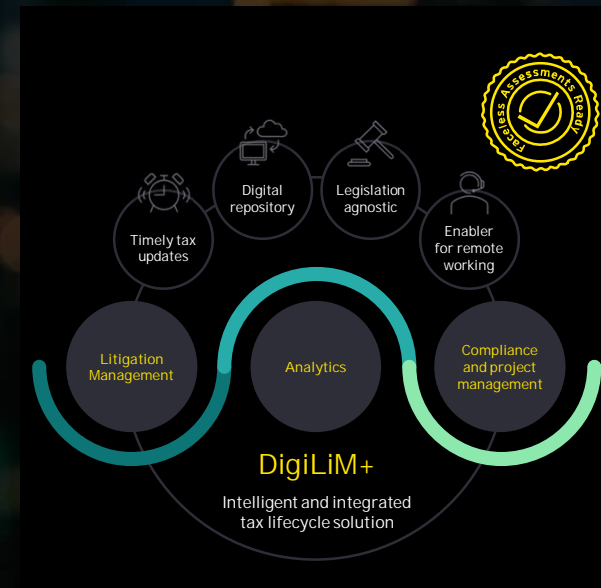

Business drivers

Businesses are facing complex tax regulations and stringent compliance requirements, leading to penalties and operational inefficiencies. The increasing complexity of tax legislation underscores the need for a unified system to handle legal proceedings and record-keeping. For firms to successfully keep pace with the dynamic tax environment, centralization is key. A platform that centralizes these aspects would simplify workflows, thereby enabling businesses to more effortlessly deal with the complexities of taxation.

Overview

DigiLiM+ is an intelligent tax life cycle platform powered by Microsoft Azure that streamlines tax litigation and compliance processes. It provides end-to-end digital case management and compliance solutions for tax departments and legal professionals across financial services, manufacturing, IT, and retail sectors. Key features include:

- Digital case management
- Smart documentation management
- Dashboard-based reporting
- Enabler for handling Faceless Assessments
- Computational capabilities
- Audit preparedness

Key benefits

Web-based application with hosting options on client or EY servers

- Comprehensive tax coverage, including anticipated taxes like GST
- Scalable architecture: unlimited legislations, entities, and user capacity
- User-specific and role-based access control for enhanced security
- Seamless integration with email and Windows server
- Convenient single sign-on via Windows authentication
- Interactive dashboard with click-through capabilities and Excel exportable reports

Shape the future
with confidence

Microsoft

Joint value proposition

- **Cloud-Powered tax solutions** EY's tax professionals combined with Microsoft Azure provides secure, scalable tax management solutions with enhanced analytics and AI capabilities.
- **Global scale with local Impact** Microsoft's worldwide cloud infrastructure and EY's global tax network help ensure consistent service delivery across all jurisdictions.
- **Enterprise security & integration world-class** Microsoft security combined with seamless Microsoft 365 integration provides a secure, familiar user experience.
- **Innovation & future-readiness** Continuous joint investment in R&D helps ensure clients stay ahead of evolving tax regulations while optimizing operational costs.

Solution differentiators

- **Intelligent case management** End-to-end digital tracking with automated workflows, real-time status monitoring, and smart task allocation.
- **Automated notice management** Direct integration with government portals for automated notice fetching and handling of Faceless Assessments, reducing manual intervention by 70%.
- **Advanced analytics** Engine Built-in computational capabilities for complex tax calculations, scenario modeling, and predictive analysis.
- **Knowledge integration** Real-time integration with TaxSutra providing curated articles and regulatory updates, ensuring compliance with latest tax regulations.
- **Smart documentation** AI-powered document management with automated categorization, intelligent search, and version control.
- **Dynamic reporting** Customizable dashboards and reports with drill-down capabilities for granular insights and trend analysis.
- **Scalable Architecture** Cloud-native design supporting multi-entity operations with unlimited user scaling and cross-border capabilities

Case study

A leading financial services firm navigates compliance for 60+ entities under almost 100 Indian tax laws

Client challenge	Engagement summary	Value delivered
<p>Challenges with compliance and litigation management -</p> <ul style="list-style-type: none">▪ Tracking multiple compliances, cases in multiple entities within the Group▪ Loss of crucial documentation▪ Lack of visibility over open matters/ tasks▪ Lack of consistency in tax positions across entities and years▪ Tracking multiple consultants and costs	<p>EY teams:</p> <ul style="list-style-type: none">▪ Conducted a detailed analysis and summarized the extent of litigation under various applicable tax laws▪ Identified gaps in the current tracking process▪ Provided technology solution to record, manage and track all litigation data on real time from multi locations▪ Provided training of DigiLiM+ to client and guidance on transitioning to DigiLiM+	<ul style="list-style-type: none">▪ Real-time tracking – leading to improved visibility and transparency of ongoing cases▪ One-stop central repository – for all tax litigation related data▪ Reduced people dependency – in case of people turnover leading to lower risk of losing data and knowledge▪ Faster reporting – Due to automated real time reports generated by the solution▪ Better data quality – due to standardized forms for recording litigation data and capability to upload all documentation
