Change the way you work with data.

- One platform, no tool-switching
- Instant fast and accurate answers, not just reports
- Conversational insights, data that talks to you
- Unified access to all your data using Application Intelligence™
- Quick and easy analytics for all users
- Fast performance, slice and dice big data in seconds

eyko®

Get more with less.

Less silos, less tools, less time, less people.

More data, more insights, more control, more answers.

eyko is a whole new way to work with data that frees up resources,
gives you back time and gives you more knowledge to make better decisions.

eyko®

A virtual warehouse for all your data.
eyko dynamically builds a virtual data warehouse as you add data. eyko's Application Intelligence™ makes it easy to combine, clean, transform, and enrich all your data for a complete picture of your business.
All the benefits of a data warehouse without the pain.
eyko®

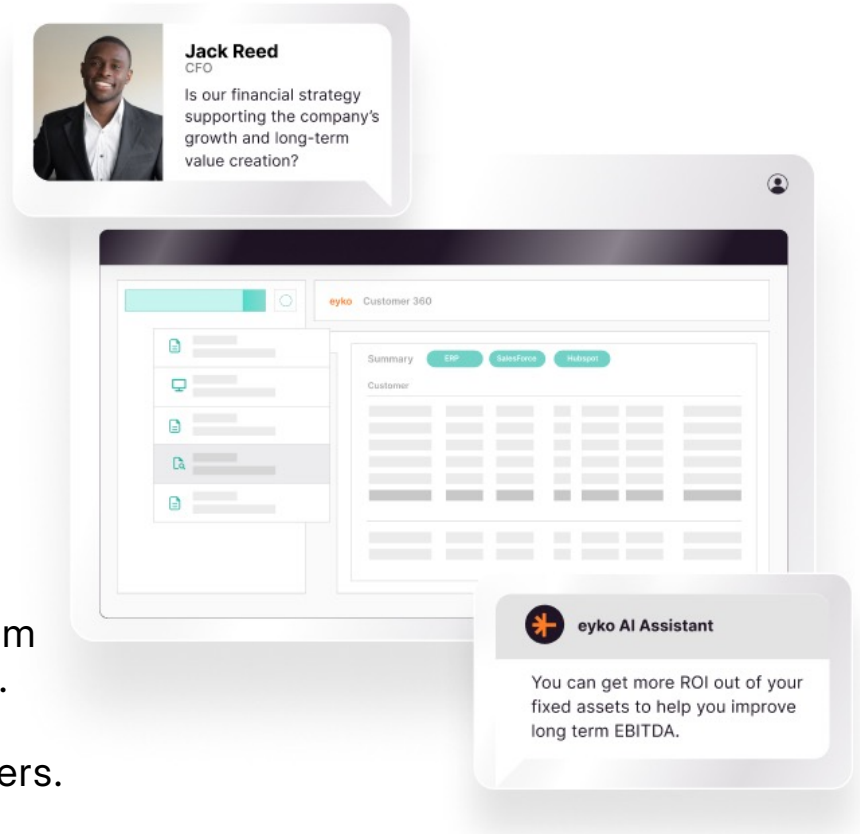
AI, without the BS.

The world doesn’t need another chatbot.

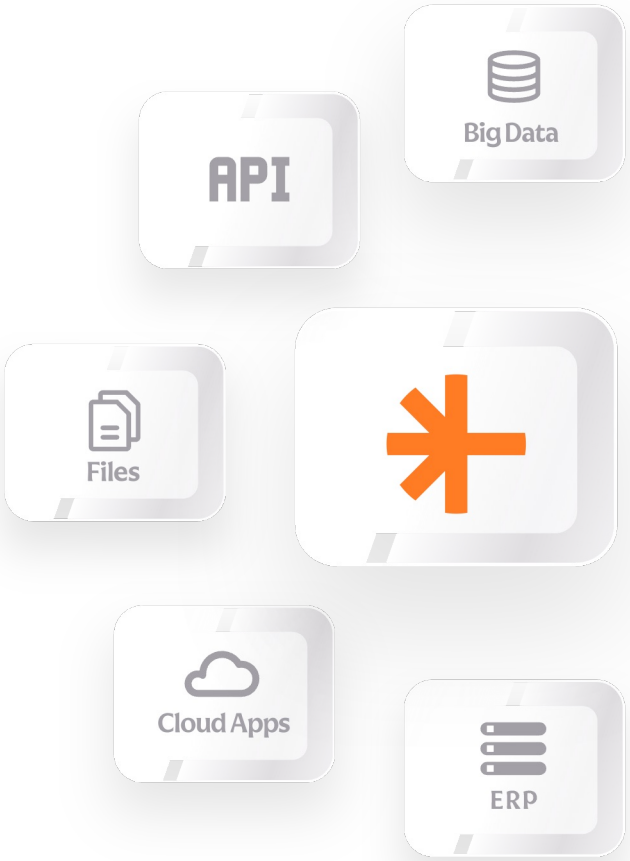
But if you want AI that helps you make better decisions from complex and propriety enterprise systems, eyko is for you.

eyko’s Application Intelligence™ ensures trustworthy answers.

Insights you can bet your career on.



eyko®



Data that works for you.

Effortless data prep.

eyko's Application Intelligence™ makes it easy to unify data from any system.

Say goodbye to long ETL data pipeline cycles and IT bottlenecks.

And get the data you need, when you want it.

Full picture, no compromise.
