F5 Professional Services:
Engagement (Custom)

Are You Challenged By…

Different Expectations?

Application teams want speed.

Operations teams want ease of management.

The “C-Suite” wants to decrease costs.

Lack of Expertise?

Need to document/standardize processes and roles.

Security: “Just trust us. We are the experts.”

Need to provide security across a multi-department environment.

Limited Experience?

Uncommon projects and activities.

Pace of technological change (e.g., cloud migration, automation, etc.).

Availability of in-house expertise.

Teams not familiar with one other.
