C O M P A N Y

Overview

- A Finnish data consultancy founded in 2024 by experienced industry experts
- Our core expertise is Microsoft Fabric, and Microsoft is our strategic partner. We also have expertise in other leading technologies

Our Data Services

- **Data-driven business:** Data strategy, Roadmap
- **Data architecture:** Data modeling
- **Data platforms:** Microsoft Fabric
- **Data applications:** Power BI, Qlik, AI

Why DW to Fabric with Us?

- **Clear roadmap:** tailored plan for your DW modernization
- **Safe migration:** phased approach, reduced risks
- **Future-ready:** scalable Fabric platform with built-in AI readiness

DW to Fabric

- Phased **DW to Fabric** is a solution for companies whose data warehouse is still on-premises or migrated to the cloud without modernization.
- The solution renews the data warehouse on Microsoft Fabric, providing a scalable, cost-efficient, and AI-ready data platform.

01 Discovery & Assessment

- We assess the strengths and improvement areas of your current data warehouse and define the target state on Microsoft Fabric

02 Fabric Solution Design

- We design future-ready AI architecture and component choices (lakehouse, warehouse, real-time data, AI Foundry)

03 Implementation Plan & Roadmap

- We create a roadmap that includes the phases, resources, and timeline for a controlled modernization

04 Budget & Value Analysis

- We calculate the costs, TCO/ROI estimate, and business benefits to support decision-making

Founding Team

Mikko Aimo
CEO

Mika Rissanen
Sales Director

Ossi Erkkilä
CTO
