

### WHAT DOES OUR DATA WAREHOUSE SOLUTION OFFER?

This **Microsoft Azure Cloud**-based solution simplifies data management by:

- **Consolidating Data:** Aggregating data from various sources, including core banking solutions like **Oracle Flexcube**.
- **Storing and Processing:** Utilizing **Azure Data Lake** and **Synapse Analytics** for efficient data handling.
- **Enhancing Insights:** Creating Data Marts for targeted analysis and leveraging Power BI for visually appealing reports and dashboards.

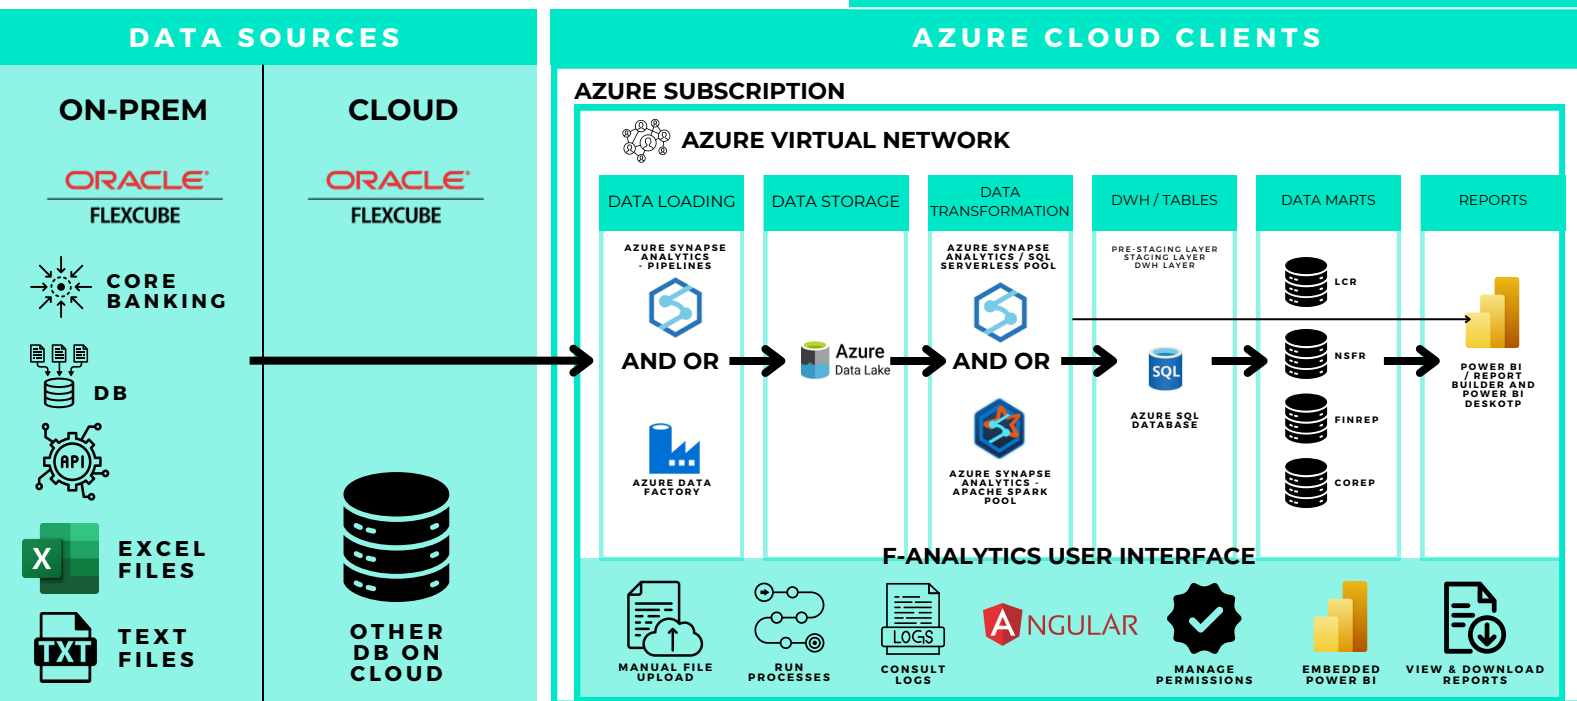

By streamlining data processes and empowering data-driven decisions, this solution helps banks and FIs improve operational efficiency, risk management, and customer experience.

### DATA MARTS FOR REGULATORY REPORTING

- **Loan Data Mart:** Loan types, balances, interest rates, and delinquency.
- **Payment Data Mart:** Payment details, dates, amounts, and fees.
- **Loan Commitments Data Mart:** Commitment terms, approvals, utilization, and limits.
- **Customer Data Mart:** Demographics and product preferences.
- **Non-Lending Data Mart:** Nostro accounts, FX, money market, and security module transactions.

- **Collateral Data Mart:** Collateral information in a standardized format.
- **Deposit Data Mart:** Deposit types, balances, and interest rates.
- **Account Transactions Data Mart:** Account debits, credits, and fees.
- **General Ledger Data Mart:** Account balances and journal entries.

**MANY MORE TO COME VIA OUR DATA MART MANAGEMENT FRAMEWORK!**

### WHY SHOULD YOU PARTNER WITH FACILIZATION?

Facilization's deep knowledge of the banking domain coupled with our continued focus on delivering excellent pre-integrated solutions provides the best of both worlds.
