The introduction of new ways of working has a big impact on people and the company

We guide you on a journey through four stages that can be iterated until each goal is achieved:

1. Discovery (the *knowledge*)
2. Operations (the *strategy*)
3. Adoption (the *change*)
4. Measure (the *awareness*)

CHALLENGES

Support and foster collaboration and communication in a hybrid workplace.

Respect the flexibility required by people and keep productivity high.

IDEAL SOLUTION

Understand existing processes / tools and mapping them to new way of working.

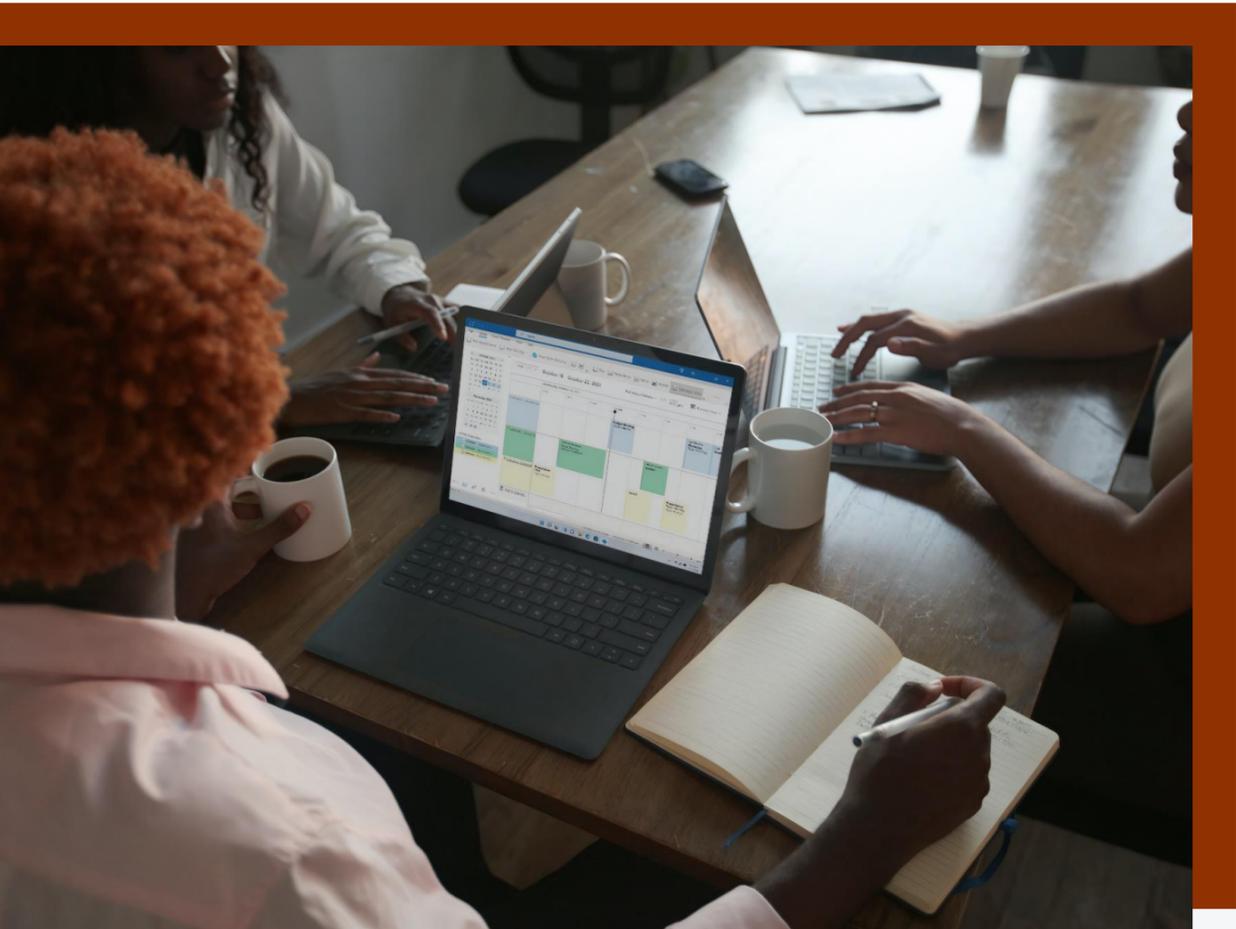

Tailored KPI to measure chngement and redefine adoption actions.

DESIRED OUTCOMES

Effective collaboration and communication for your company's DNA.

Seamless employee experience.

Cost and time saving.

Your Teams DnA

Connecting people and technology to reshape their collaboration experience.

1

SEMPLIFICATION AND OPTIMIZATION

A tailored assessment can simplify existing technologies and streamline collaboration processes.

2

IMPROVED PRODUCTIVITY

The right configuration and adoption of Microsoft Teams can simplify and speed up employee experience.

3

MICROSOFT 365 READINESS

The modern collaboration based on Teams is the first step to a new workplace experience with integrated M365 tools.

FAR Networks, Your Teams DnA & Microsoft Teams

Microsoft Teams is the hub of the modern collaboration.

It can be “another tool” for your employees or it can be the flywheel for an enhanced working experience: the keystone is the process of Discovery and Adoption tailored on your culture and DNA.

HYBRID WORK SUPPORT

We can identify the best way to use Teams to support the collaboration needs required by your employees.

EFFECTIVE COLLABORATION

Streamline work, simplify processes, reduce existing tools: Teams is more than a product – it's a fundamentally different way of working.

RETURN OF INVESTMENT

We can help you measure the return of investment: the right KPIs for your DNA and the right analytic data provided by M365.

Customer success: Lavazza and its DNA towards innovation

The quality of working life is one of the priorities of the company that has decided to invest in introducing Microsoft Teams as a collaboration and communication tool, bringing together the main functions currently performed by different tools, used in 90 countries by more than 4000 employees.

IMPROVED WORK PROCESSES

Through the Discovery phase, the existing collaboration and communication patterns have been simplified and mapped on Microsoft Teams capabilities.

INNOVATION AT A HUMAN STEP

Employees were guided to the adoption of new way of collaboration and communication through a strategy based on training sessions and awareness campaigns tailored on their needs.

COST SAVING

Teams DnA program has allowed Lavazza to dismiss several communication and collaboration tools, with a single environment Microsoft Teams.
