

Duration

3 days

Cost

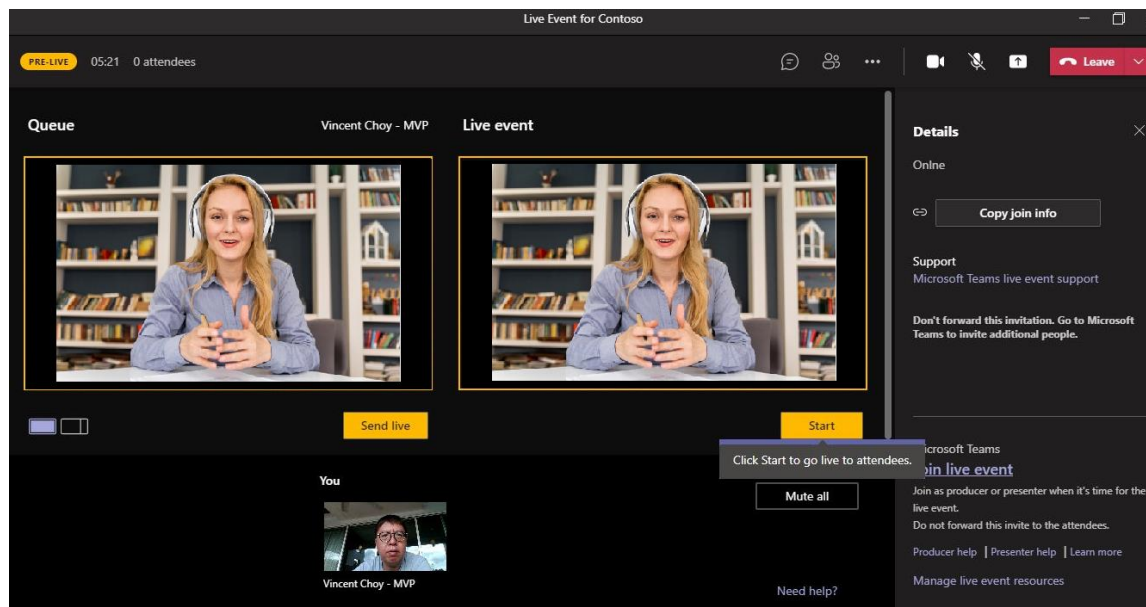

RM 4,000

Terms & Conditions

This coaching introduces a customer to the basics of Microsoft Teams Live, leading to the customer running an actual or mock live event under our guidance.

This is an introductory level course and uses the basic features of Teams and does not include the use and integration of professional broadcasting systems such as professional cameras, sound systems, video production / streaming systems and software.

Teams Live Coaching

Do you need to run an event using Microsoft Teams but want to run it as a more controlled event to a large audience? .

Teams Live events allow a much more professional delivery of an online event enabling organizers to broadcast video and meeting content to a large online audience.

Live events are meant for one-to-many communications where the host of the event is leading the interactions and audience participation is primarily to view the content shared by host. The attendees can watch the live or recorded event in Yammer, Teams, or Stream and can interact with the presenters using moderated Q & A or a Yammer conversation.

This coaching session provides the following :

1. Half day briefing and training on Microsoft Teams features
2. Consultation on live event planning leading up to the actual event
3. Half day rehearsal using an actual or mock live event of the customer
4. Half day technical assistance and standby during customer's live event
