

Feedyou Platform

About Feedyou

Feedyou is a Gartner recognized **Conversational AI Platform** enabling enterprises to effectively build, deploy, manage and scale advanced virtual assistants from one place. Our mission is to help people to get rid of repetitive and unproductive communications, tasks and processes.

See what customers are saying:

"Feedyou drives our digital transformation with professionalism. It was a great and very quick start. Feedyou helped us to design and launch our very first customer oriented virtual assistant in our web portal and mobile app which are now used by over 150 clients, 15 000 employees and over 2 000 partners. It took us about 4 weeks to go live."

— Jérôme Pelus, CEO, UP (Le Chèque Déjeuner)

What we offer

Outstanding employee & customer experience at lower costs. Easily managed by you. Leverage the power of AI-driven virtual assistants and reduce your costs by 50%+.

Microsoft Azure Cloud is used to run the Feedyou Platform, where each virtual assistant solution runs in a separate resource group, reducing security risks and making the administration as smooth as possible.

Why Feedyou Platform

- **All-in-one Conversational AI Platform** for cross-industry uses.
- **Easy-to-use** by non-technical users (no-coding skills required).
- **Integral chat & voice channel support.**
- **Proprietary NLP technology** with 104+ languages support.
- **Powered by Microsoft Speech Services (STT/TTS).**
- **Fully compatible with your ICT infrastructure.**
- **Fast GTM** thanks to our premade content & components.
- **Team. Traction. Long-term experience** with profitable & award-winning chatbot/voicebot solutions.

Why Microsoft Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge — we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
