Identifying and extracting data to provide information

Fellowmind, Data & Analytics

Fellowmind Denmark is an IT-consultant company with around 400 employees. It is Fellowminds goal to create meaningful connections, through technology and people. We strive to find opportunity and embrace the technological solutions and personal dimensions, by looking at the bigger picture.

See what customers are saying:

"There is no doubt that the input we received will benefit our platform in the future, and we were in safe hands with some very professionally competent consultants from Fellowmind."

— Jonas Holstein, Manager, DFDS

WHAT WE OFFER

In Fellowmind, Data & Analytics, we work with Business Intelligence, Data Warehouse development, power platform, including Power BI, Machine learning and AI focusing on the Microsoft platform, whether on-premise solutions or Azure, but we also have competencies within numerous other BI tools from other software vendors, for example Targit, Tableau and Qlick.

We help customers with both development and consulting, where we seek to uncover the business's data needs to develop a strategy together with the customer covering, business needs, data platform architecture, governance, competencies and processes.

Why Microsoft Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a $1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
