

Microsoft Power Platform Centre of Excellence

What is it?

The Centre of Excellence (CoE) is a set of components and tools that can be deployed into your Power Platform tenant. Once deployed, the CoE provides Power Platform owners and administrators with the tools necessary for successful:

- Administration & Governance
- Nurturing
- Supporting
- Operations

What is the Value?

Every successful Power Platform deployment requires ownership, investment and insight. The CoE provides platform owners and stakeholders with the tools necessary tools to monitor, manage and control what's happening within their Power Platform tenant.

Session Attendees:

We recommend representation from stakeholder groups within your organization like IT security, platform owners and other relevant stakeholders.

How can Fidelity Factory help?

Our half-day session includes:

- CoE Setup and Deployment
- Walkthrough of Features and Benefits
- Basic configuration of key CoE elements
