READINESS ASSESSMENT

THE SESSION

During this session, members of our team will walk you through the assessment to identify your current situation and a path to your targets.

In this interactive session, our team will work with your business and technology leaders to gather information necessary to provide guidance and recommendations that will support and prepare you for your journey with PowerApps and MS Flow.

OVERVIEW

- Discuss the current deployment of PowerApps and MS Flow
- Identify currently deployed or planned apps and associated business value
- Review your current capabilities for delivering solutions using PowerApps and MS Flow
- Discuss the roles within your organization that you intend to deploy the product to.
- Highlight data loss prevention, security and administration considerations.
- Guidance and recommendations will be provided based on the session to direct your next steps with MS Flow and PowerApps.
