- ✎ Tailor the scope of each service to provide only what you need
- ✎ Protect your organization by collaborating with Microsoft Best Practices

Aligned with Microsoft Cloud Subscriptions – Buy the license, Add the Service

What's Included? How Does it Work?

- Intune Setup and Best Practices Assessment and Implementation
- Intune Monitoring for Compliance and updated settings
- Remediation of non-compliant devices
- Patch Management, OS Updates and Software App deployment
- Integration with Defender Endpoint (If present) to ensure updates
- Advanced Intune Support
- Monthly Reports

Environment Assessment and Onboarding

In Phase 1, we define and deploy tailored configurations in Intune to meet business needs. This includes robust compliance policies, BitLocker setup for Windows devices, and aligning security measures. We review application management, remote device protocols, and fine-tune Intune enrollment for seamless deployment.

Phase 2 involves curating a list of authorized users for Finchloom support and delivering comprehensive documentation outlining the configured settings and completed tasks.

Regular Recurring Services

Monthly Intune Monitoring, Administration, and Support includes patch management, activity review, remediation of issues, and reporting on device compliance and management.

Work with Finchloom to determine a tailored scope of monthly services for your organization.
