Unprecedented need to go contactless in all physical processes

Social Distancing is the new normal. Queues are out of fashion.

Offices need digital transformation more than ever

Spacepulse
Visitor Management

OFFICE OF THE FUTURE

Important Clients – Signing in with a paper visitor book is a small ask but laborious. Your visitor might find it cumbersome

Respect Privacy – Paper log-books can be easily tampered, every 20th person can see last 19 person data

Create an impression – A smart visitor management will portray that you are in sync with the latest technology

SAFETY AND SECURITY

Mandatory system – No sign-in is No entry.

Digital records – Every visitor can be tracked in premises and records are maintained. Records cannot be tampered.

Protection – Deterrent for bad intent.

Pre Approval / Visitor Initiated

Employee can create visitor pass for upcoming visitors. Visitors will receive pass on email/SMS/WhatsApp. Visitors can also scan QR, and do self entry.

Security Initiated

Security can create visitor entry from manager application or web based console

Notifications and Approval

Email, SMS, In App notifications and host approval process configurable.
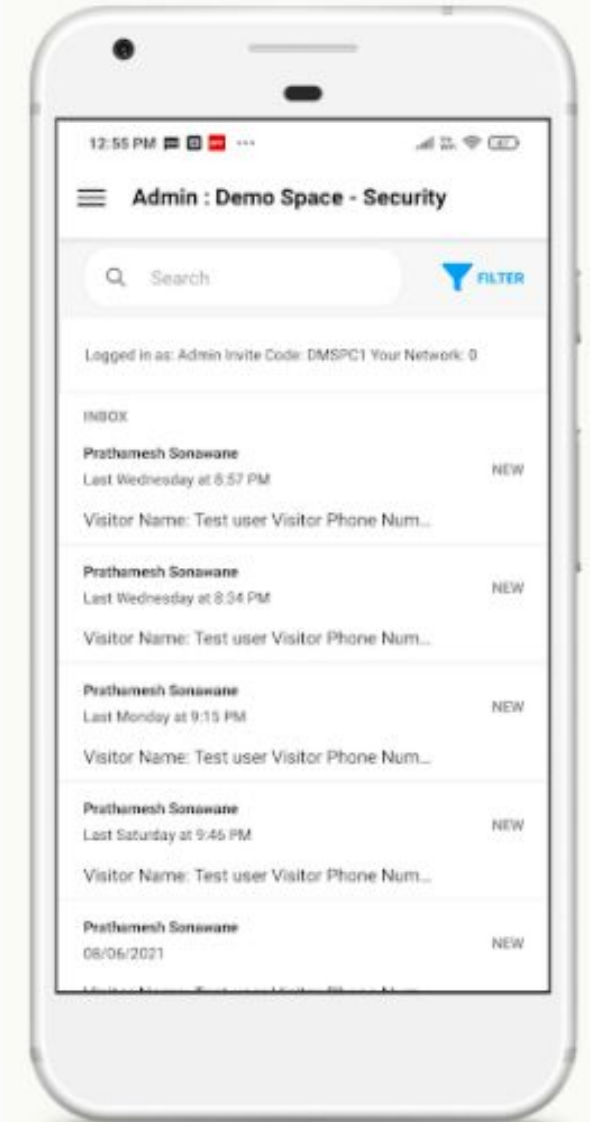

- Customized emails with notifications and messages for: visitors, admins and host

Digital Pass with QR

Visitor Alert
