

Surface the 5% of Defender alerts that matter to you right now

fletch.ai

Automating threat prioritization is no longer a convenience—it's a necessity. Prioritize your Defender alerts so you know where to focus your limited time, with Fletch.

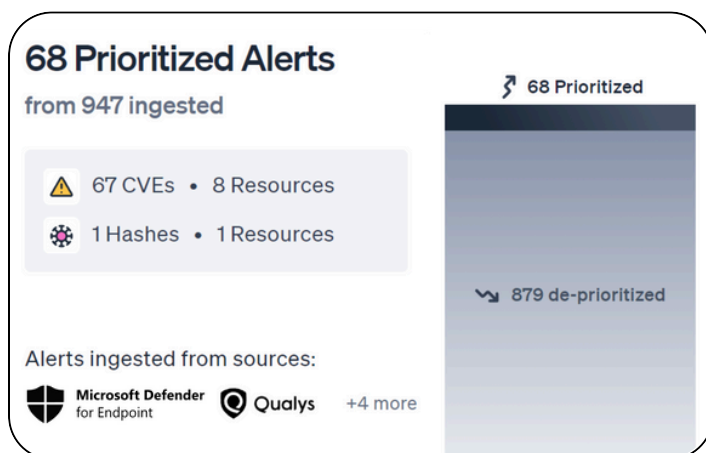

Fletch provides organizations of all sizes with the context to stay ahead of cyber threats. Trusted by 1,000s, we know which threats matter to you and equip you with everything you need to tackle them.

Get more out of your Microsoft Defender with Fletch

Track and trend the threat landscape: Correlate your Defender alerts to the latest from across the threat landscape.

Prioritize your alerts: Dedupe, filter and prioritize alerts to see the few most critical alerts right now and deprioritize the rest.

Forecast threats on your horizon: Find threats targeting companies that look like you.

Here's how you'll benefit from using Fletch + Defender:

- **Save hours daily:** AI agents correlate the threat landscape to you, for you.
- **Know where to focus:** Wake up to knowing the few threats worth your time.
- **Know what to do:** Get daily advice on what to remediate and how to fix it.

"We would ingest data from Defender and dread it. Fletch makes it easy for us."

— A real Fletch customer in financial services

No more wasted time prioritizing alerts. No more guesswork finding the threats relevant to you. Threat forecasting turns thousands of alerts into dozens of prioritized alerts to focus on each day.
