# Why Choose SkillUp's Learning Management System with Azure?

## At a glance:

- Created by Harvard University & MIT
- Highly scalable & customizable
- Feature-rich out of the box
- Offers advanced content creation, course navigation & administration
- Highly accessible web and mobile interfaces

### Scalable

The platform caters nicely to larger-scale audiences, wherein it can easily scale from a few learners to millions of learners.

### Customizable

The platform is fully customizable and can be tailored to meet your specific needs.

### Integration

The platform can be integrated with other LMS for content. It supports LMSs, SAML and LTI for SSO and content integration.

### Robust Hosting

Azure's innovative cloud offering provides a secure, distributed hosting environment.

## Why SkillUp's LMS with Azure?

Highly scalable & customizable • Trusted, secure & compliant  
 Enables rapid deployment • Fully supports bespoke applications  
 Offers data backup & disaster recovery

# SkillUp's LMS with Azure

We offer a range of services to help you get up and running quickly with a tailored learning management system that meets your business's needs

## Installation of the SkillUp LMS

We can configure and install a company-branded, white labeled, and fully customized LMS in a distributed environment on Azure for you.

## Customization of SkillUp's LMS

Customizations vary according to requirements. Examples include enrollment workflow customization, user experience customization, and integration with a third party for SSO or content. Your needs drive the customizations we make.

## Integration of the SkillUp LMS with Third-party Solutions

Integrations vary according to requirements. Examples include SSO integration with other LMS/platforms e.g. Canvas and Moodle, and content integration using LTI integration as well as API integrations.

## Managed Services for the Installed SkillUp LMS

This includes the upkeep, maintenance, and support of your platform, plus platform upgrades, backups, security monitoring, and more.

## Training

We can provide training in the content management system to authors and administrators.

## Additional Consulting Services

We offer consulting on lifecycle learning strategies and methodologies. We also provide content creation and learning support services such as instructional design, video production, mentoring, and much more.

## The power of Azure

We know how to optimize the power of Azure to get the best out of a Learning Management System designed to meet your specific needs.
