

## **Flipick Teams LTI Client**

The App provides a Single Sign On (SSO) with a LTI (Learning Tools Interoperability) server to launch course(s). It is a LTI Tool Consumer and supports Basic LTI (BLTI). The following keys are necessary

Launch URL

Consumer Key

Secret Key

A Teams Administrator Role is the only one who can Create or Delete Courses. All other users can launch the course

## **Tabs**

Use in a tab at the top of a channel

## **Permissions**

This app will have permission to:

Receive messages and data that I provide to it.

Access my profile information such as my name, email address, company name, and preferred language.

Receive messages and data that team members provide to it in a channel.

Access information from this team or chat such as team or chat name, channel list and roster (including team member's names and email addresses) - and use this to contact them.
