

*Accelerate your business transformation with FDG's Power Platform 2-Day Assessment. Designed for organisations seeking to optimise workflows and unlock the full potential of Microsoft Power Platform, this expert-led engagement delivers a tailored analysis of your business processes, a strategic solution blueprint, licensing and governance guidance, and a clear implementation roadmap. Ideal for business and IT leaders exploring low-code innovation, our assessment helps you make informed decisions and plan successful Power Platform adoption, including optional Azure integration for enhanced scalability.*

## **Power Platform: 2-Day Assessment**

### **Focus Dynamics Group**

Unlock the potential of Microsoft Power Platform with a focused 2-day assessment designed to accelerate your business transformation. Our experts will analyse your business challenges & current environment, design tailored solutions, and integrate with Azure to streamline and enhance your workflows.

### ***Empower Your Business with Low-Code Innovation***

Before diving into low-code development, it's essential to understand what Microsoft Power Platform can truly offer. FDG's Power Platform Assessment provides a clear analysis and strategic roadmap to help you make confident, informed decisions.

Also known as a Specification Review, our assessment focuses on understanding your business needs and exploring Power Platform solutions — with optional Azure integration to boost performance and scalability.

### **What You'll Receive:**

- **Business Process Analysis**  
We assess your existing workflows to identify opportunities for automation and optimisation using Power Platform.
- **Blueprint Creation**  
A comprehensive solution blueprint detailing architecture, required components, and Azure integration points.
- **Licensing & Governance Recommendations**  
Guidance on cost-effective licensing and best practices for governing your Power Platform environment.

- **Product Backlog Items with Effort/Time Estimates**

A prioritised feature list with effort estimates to support accurate planning and budgeting.

- **Implementation Roadmap**

A detailed plan outlining the steps for successful Power Platform adoption, aligned to your business goals and timelines.

*Pricing varies based on the scope of the engagement. Licensing costs are additional to the engagement fees.*
