Integration Solutions: eCommerce Connectors

Open Source eCommerce	Hosted eCommerce

Retail eCommerce

Deployment of Connectors

Our connectors are deployed entirely within Dynamics NAV, so **merchants can manage the integration from a menu within NAV/BC**

They automatically sync inventory levels, product/item information, sales orders, customer data, order fulfillment info, shipping/tracking and billing data between Dynamics NAV/BC and your eCommerce platform

The **deployment time** for '**off the shelf**' **integration is typically 2 weeks and license cost is about $350/month**

"I have worked with development teams before where on-time delivery was hit-and-miss and testing was not very thorough. This is thankfully not true with Folio3. It is so wonderful to be able to trust in a team that does high quality work, delivered on time, and well-tested before delivery."

- Matt Klein
  Director – Field Services
  Sopris Systems

What is **NAVCom**?

- An **easy-to-setup, light-weight & smart EDI framework**.
- Based on a highly scalable and reliable architecture.
- Hosted on Cloud based failover cluster.
- Secure transmission of records on both sides.
- Live status of transmitted data and job status.
