Our Solution

IntelliFabric Reporting Suite

Folio3 partnered with Savills to enhance reporting by leveraging Microsoft Fabric's Medallion Architecture, centralizing and unifying data from diverse sources to deliver comprehensive, end-to-end solutions.

Impact We Delivered

The solution streamlined data integration and reporting, providing Savills with real-time business insights for improved decision-making.

5+ Data Sources Integrated

90% Reduction in Time-to-insight

30% Reduction in Operational Costs
