

# Getting the right resources in the right hands

# Do you know where your resources are?

.....  
Who's responsible?  
.....

.....  
What they're worth?  
.....

.....  
Are they in use?  
.....

Whether it's laptops, textbooks, tablets, musical instruments or special education equipment, being able to account for where your districts resources are and what condition they're in not only gives you piece of mind, but it saves your budget on would-be replacement costs. And that's just a part of what Follett Destiny® Resource Manager™ can do.

You can now align your educational investments to your educational goals and know how much of your budget is with teachers and students versus administrative and facility overhead. Understand how resources from physical to digital resources, and even services, are allocated among schools or subjects, and know what percent is being utilized on any given day.

# PUT YOUR TRUST IN THE #1 RESOURCE MANAGEMENT TOOL FOR SCHOOLS TODAY

Destiny Resource Manager helps you get the proper resources into the hands of your students. Whether it's by supporting both print and digital learning environments, helping you deploy rollouts of laptops, tablets, textbooks or eBooks, Destiny Resource Manager is designed to help you simplify the process.

## A quick guide to what Destiny Resource Manager offers:

### ADMINISTRATIVE ACCOUNTABILITY:

- Demonstrates accountability and control over inventory
- Saves money by assigning accountability and reducing lost or stolen items in ALL categories
- Prepares schools and districts for natural or other disasters
- Keeping a centralized inventory that identifies all district resources helps you ship textbooks from school to school instead of buying more than you need

### STUDENT LEARNING RESPONSIBILITY AND AVAILABILITY

- Supports both print and digital learning environments
- Deploys 1:1 rollouts of laptops and tablets PLUS textbook and eTextbook distribution
- Manages all resource investment, allocation and utilization
- Demonstrates student equity and supports dual enrollment
- Aligns learning results with goals

98% of Destiny Resource Manager customers continue using it every year.

including a video and a ROI calculator that will tell you how much you can save in each resource category.

# Follett Destiny<sup>®</sup> Resource Manager<sup>™</sup> helps you with...

**Accountability** Catalog, inventory, and circulate each and every item, 24/7 to specific individuals or departments and stop losses.

**Availability** Demonstrate that every student has exactly what they need, when they need it (Williams Act report).

**User Defined Fields** Define an unlimited number of resource categories and create an unlimited number of data fields to collect information to support your district needs.

**Valuation** Know the value of resources from purchase price or replacement cost to depreciated values.

**eTextbooks** Assign individual licenses/access codes to Teacher/Students via Class Schedules for eTextbooks.

**ISBN / UnBarcoded Items** Circulate items without barcoding. Manage by quantity on low value/low risk items.

**Audit Trail** Keep a log of all changes made related to each asset – Forever.

**Automatic Conditioning** Automatically determine book condition based on age/circulation.

**Fines** Collect fines to enforce accountability or offset costs for item repairs.

**Help/Maintenance** Ensure proper support on any resource for teachers/students by using Help Tickets.

**Funding Compliance** Respond to funding audits by knowing exactly where every resource is.

**Class Schedules** Assign and deploy any resource to students automatically based on class schedules.

**Warehouse** Support warehouse order/ship/receive operations from schools using barcodes/quantities/both. Transfer resources among schools easily.

**Transfer** Encourage & illustrate sharing of resources across the organization with transfer reports.

**Liquidation** Record that resources are properly disposed, salvaged, or sold.

**Integration** Ability to import information from any other system (students, class schedules, mobile device).

**Mobile** Utilize mini-Destiny with the Follett 7100 hand held mobile computer device for inventories.

**RFID** Utilize RFID UHF for ultra fast inventory scanning.

**Single View Summary** See all resources assigned to student/teacher/admin/staff in a single page view.
